WHEREAS federally recognized tribal governments have a nation-to-nation
 relationship with federal agencies; and

- WHEREAS the 2020 National Petroleum Reserve in Alaska Integrated Activity Plan

 jobs annually over a period of 30 years; and

3 WHEREAS state royalties from oil and gas development in the National Petroleum 4 Reserve in Alaska are allocated to the National Petroleum Reserve in Alaska Impact 5 Mitigation Fund, which is used to provide the local communities of Anaktuvuk Pass, Atqasuk, 6 Nuiqsut, Wainwright, Utqiagvik, and the North Slope Borough with grants to mitigate 7 impacts related to oil and gas development; and

8 WHEREAS resource development in the state has benefited rural communities by 9 bringing family-supporting jobs and wages, increased educational opportunities, safe water 10 and wastewater facilities, and expanded health care services to those communities; and

11 WHEREAS, because of resource development and associated revenue and 12 infrastructure investments, compared with the national average, rural areas of the state 13 experienced greater increases in life expectancy between 1980 and 2014 in locations where 14 resource development activities, including oil and gas development, mining, and fisheries 15 operations, have occurred; and

WHEREAS continued development of the state's renewable and oil and gas resources
 with rapidly advancing carbon sequestration deployment ensures that the state can meet its

 and be it

FURTHER RESOLVED that the Alaska State Legislature affirms the importance of consultation among the federal government, tribal governments, local governments, and Alaska Native corporations regarding proposed federal regulations; and be it

FURTHER RESOLVED that the Alaska State Legislature concurs with local tribal governments and indigenous stakeholders that consultation regarding the proposed Bureau of Land Management regulations affecting the National Petroleum Reserve in Alaska was insufficient given the potential economic impact of withdrawal of land from development and effects on the ability of tribal and local governments to fund basic infrastructure with property tax revenue; and be it

31

FURTHER RESOLVED that the Alaska State Legislature urges withdrawal of the

Bureau of Land Management's proposed rule to adopt regulations affecting the National Petroleum Reserve in Alaska, as proposed in September, 2023, asserting that the proposal (1) lacks the benefit of consultation; (2) does not align with the congressionally adopted policy of oil and gas production, subject to reasonable mitigation measures, as reflected in 42 U.S.C. 56501 (Naval Petroleum Reserves Production Act of 1976); and (3) does not serve the public interest; and be it

FURTHER RESOLVED that the Alaska State Legislature urges that future proposed
regulations consider the full economic impact of resource development, including jobs within
the region and throughout the state, funding for apprenticeship and other workforce
development programs, employment of Alaska Native corporation shareholders and tribal
members, and effects on wages for working class Alaskans; and be it

FURTHER RESOLVED that the Alaska State Legislature urges that future proposed regulations by the federal Bureau of Land Management align with the congressionally adopted policy of oil and gas production, subject to reasonable mitigation measures, as reflected in 42 U.S.C. 6501 (Naval Petroleum Reserves Production Act of 1976); and be it

16 FURTHER RESOLVED that the Alaska State Legislature urges that future proposed 17 regulations by the federal Bureau of Land Management consider the role of energy production 18 in advancing national security and energy independence for the United States and its allies.
