Senate Bill 234

Committee: County and Municipal Government Sponsor: Senator Sam Givhan

Analyst: Peter Grogan

Date: 03/20/2024

Senate Bill 234 as introduced would expand the exemption from the competitive bidding requirements, currently allowed for certain municipal public building authorities, to certain county public building authorities that contract for the purchase of construction of certain plants, buildings, or other facilities designed for industrial development. This could increase or decrease the contract prices for the purchase or construction of such facilities by an undetermined amount dependent upon the difference in (1) the contract price procured under the provisions of this act and (2) the contract price otherwise obtained under previous law.
