18 SECTION 2. EMERGENCY CLAUSE. It is found and determined by the
19 General Assembly of the State of Arkansas that agriculture is one of
20 Arkansas's most important industries; that farmers and other persons engaged
21 in agricultural activities require use of the state highways and roadways to
22 engage in those same agricultural activities; that highways and roadways have
23 by law certain requirements for the motor vehicles that operate on them; that
24 it is incumbent on the state to accommodate farmers and other persons engaged
25 in agricultural activities as much as possible due to the enormous importance
26 placed on the agricultural industries in the state; and that this act is
27 necessary because certain parts of the roadway over the St. Francis Sunken
28 Lands Wildlife Management Area, which may be designated in the future as part
29 of the Interstate Highway System and other routes within the National Highway
30 System, are used by farmers and persons engaged in agricultural activities.
31 Therefore, an emergency is declared to exist, and this act being necessary
32 for the preservation of the public peace, health, and safety shall become
33 effective on June 1, 2015.
