

ARIZONA STATE SENATE
Fifty-Fifth Legislature, First Regular Session

FACT SHEET FOR H.B. 2334

dangerous; incompetent person; evaluation; commitment

Purpose

Establishes procedures regarding the commitment, detainment, conditional release and discharge of a defendant deemed incompetent, non-restorable and dangerous. Outlines requirements for the treatment of a committed defendant.

Background

Statute allows any party, if the court finds that a defendant is incompetent to stand trial and that there is no substantial probability that the defendant will regain competency within 21 months after the date of the original finding of incompetency, to request that the court: 1) remand the defendant to an evaluating agency for the institution of civil commitment proceedings; 2) appoint a guardian; or 3) release the defendant from custody and dismiss the charges against the defendant without prejudice. If the defendant is remanded, the prosecutor is required to file a petition for evaluation and provide any known criminal history of the defendant ([A.R.S. § 13-4517](#)).

Statute defines *incompetent to stand trial* as a defendant, as a result of a mental illness, defect or disability, being unable to understand the nature and object of the proceeding or unable to assist in the defendant's defense. *Incompetent to stand trial* is also defined as, in the case of a person under 18 years old, a person who does not have sufficient present ability to consult with the person's lawyer with a reasonable degree of rational understanding or who does not have a rational and factual understanding of the proceedings against the person ([A.R.S. § 13-4501](#)).

According to a Joint Legislative Budget Committee (JLBC) fiscal note, the fiscal impact of this legislation cannot be determined with certainty, as the JLBC does not know how often the courts would commit dangerous defendants to the Arizona State Hospital (ASH). The Department of Health Services (DHS) estimates that its ongoing annual costs would increase by between \$95 million and \$115 million. The JLBC estimates under one possible scenario that costs could be significantly lower at approximately \$5.7 million in FY 2021, gradually increasing to \$21.5 million in FY 2025. Additionally, DHS estimates the cost of construction for new facilities to provide these services would be approximately \$137.5 million. The JLBC expects that additional facilities may be needed to meet the requirements of the legislation beginning in FY 2022. Furthermore, the bill may increase costs to the courts to meet requirements for conducting proceedings for dangerous and incompetent defendants. However, the impact cannot be determined in advance ([JLBC Fiscal Note](#)).
