Overview

Establishes the Urban Air Mobility Study Committee (Committee).

History

The Arizona Department of Transportation (ADOT) under the Aeronautics Division is required to cooperate with all state, local and federal organizations to encourage and advance the safe and orderly development of aviation in Arizona ([A.R.S. § 28-8242](#)).

Aircraft operating in Arizona must conform to design, construction and airworthiness standards prescribed by the United States or the appropriate federal agency for the navigation of aircraft subject to its jurisdiction. It is unlawful for a person to navigate an aircraft in this state unless it is licensed and registered by the appropriate agency of the United States in the manner prescribed by regulations of the United States or the appropriate federal agency ([A.R.S. § 28-8272](#)).

[A.R.S. Title 28, Chapter 25](#) outlines state aviation regulations for aircraft operations, registration and airports in general.
