HB 2585: motor carrier; safety improvement
Sponsor: Representative Weninger, LD 17
House Engrossed

Overview

Prevents the consideration of the deployment, implementation or the use of safety improvement by a motor carrier in evaluating employment status.

History

An *employee* is any person who performs services for an employer and who is subject to the direction, rule or control of the employer as to both the method of performing the services and the result to be accomplished. Statute describes control as setting the employee's work hours, work location, right to perform services for other employers, use of certain tools, equipment, materials, expenses and using other workers. Statute also lists individuals that do not fall into the category of *employee*, such as independent contractors, agents or consultants, or those working in an independent trade, skill or occupation ([A.R.S. § 23-613.01](#)).

A *motor carrier* is a person who operates a commercial motor vehicle on the highway. These vehicles are designed or used to transport passengers or property by a commercial enterprise, such as a bus, a vehicle that transports eight or more passengers for hire or a vehicle that has a gross weight rating over 10 thousand pounds ([A.R.S. 28-5201](#)).

Provisions
