**House Engrossed**

**Overview**

Requires all of Arizona's counties to participate in the statewide voter registration database.

**History**

The Help America Vote Act of 2002 (HAVA) instructed each state to establish a *single, uniform, official, centralized, interactive computerized* statewide voter registration list. In 2019, the Secretary of State's office implemented the Access Voter Information Database (AVID), which serves as Arizona's current statewide voter registration database. 13 of Arizona's counties input and maintain their data directly through AVID while Maricopa and Pima operate and maintain their own independent systems that are interfaced with AVID. AVID is comprised of Arizona's statewide voter registration database, an election management system, address, precinct and precinct part management system and a public information portal ([P.L. 107-252 § 303](#), [A.R.S. § 16-168](#), [2023 EPM P.20](#)).
