

ARIZONA STATE SENATE
Fifty-Sixth Legislature, First Regular Session

AMENDED
FACT SHEET FOR S.B. 1093

city water provider; service; requirements

Purpose

An emergency measure that requires a municipality, until January 1, 2026, to provide water service through a standpipe for water hauling to certain persons residing outside the water service area who do not have access to sufficient water.

Background

A *municipal water provider* is a city, town, domestic water improvement district, private water company or irrigation district that supplies water for non-irrigation use ([A.R.S. § 48-5901](#)). A *service area* with respect to a city or town, is the area of land actually being served water, for non-irrigation use, by the city or town ([A.R.S. § 45-402](#)).

The Arizona Corporation Commissions (ACC) regulates Arizona private water companies and private wastewater companies. The ACC has more than 400 individual water systems that are operated by nearly 350 companies under their regulatory jurisdiction ([ACC](#)).

There is no anticipated fiscal impact to the state General Fund associated with this legislation.

Provisions

1. Requires a city or town to provide water service through a standpipe for water hauling to persons residing outside the water service area who do not have access to sufficient water if:
 - a) the number of households to be serviced is less than 750;
 - b) the city or town previously provided water service to the persons who do not have access to sufficient water;
 - c) there is no other source of water for those persons within 10 miles of their households;
 - d) the city or town is reimbursed for the costs of providing and delivering the water; and
 - e) providing the water at the standpipe does not reduce the amount of water available to households within the city's or town's water service area or to households outside of the city's or town's water service area with whom the city or town has contracted to provide water.
2. Requires, for a municipality that is required to provide water, that the amount of water is comparable to the amount of water that was previously provided.
3. Repeals the requirements relating to water service outside a city or town on January 1, 2026.
4. Becomes effective on signature of the Governor, if the emergency clause is enacted.

Amendments Adopted by Committee

1. Adds an emergency clause.
2. Requires a city or town to provide, to persons who do not have access to sufficient water, an amount of water that is comparable to the water that the city or town previously provided.
3. Removes the conditional repeal and delays the repeal of the requirements relating to water service outside a city or town until January 1, 2026.
