

ARIZONA STATE SENATE

Fifty-Sixth Legislature, Second Regular Session

FACT SHEET FOR S.B. 1338

Pacific conflict; committee; audits

Purpose

Establishes the Bipartisan Select Committee on Pacific Conflict (Committee) with the purpose of identifying all critical infrastructure and other assets within Arizona that could be targeted by malicious actions by adversarial nations in the event of a pacific conflict and that would result in a significant negative impact on the public health, safety, economic security or physical security of Arizona and the United States.

Background

The Department of Public Safety (DPS) operates the statewide critical infrastructure information system and makes critical infrastructure information available to all state, local, federal and tribal law enforcement agencies, the Department of Emergency and Military Affairs (DEMA), public health organizations, the Arizona Department of Agriculture, the Department of Health Services, fire departments and other organizations, as necessary to safeguard the personnel and property in Arizona. The critical infrastructure information program is implemented based on the state-wide assessment of threat and vulnerability by the Arizona Counterterrorism Information Center (ACTIC) under DPS.

DPS also coordinates the critical infrastructure information program that is implemented based on the statewide assessment of threat and vulnerability by ACTIC. DPS must implement state of the art technologies to address as many critical infrastructure facilities in Arizona as funding allows (A.R.S. §§ <u>41-1802</u> and <u>41-1803</u>).

There is no anticipated fiscal impact to the state General Fund associated with this legislation.
