which the grant money is intended to be used. The bill requires state agencies to request that grant donors submit a letter including such information to the state agency at the time of making the grant to assist the state agency in tracking and reporting all grants received during a fiscal year.

In addition, the bill requires each new bill enacted by the general assembly on or after January 1, 2011, to include a notice of funding requirement if a program, service, study, interim committee, or other function of state government (program) created in the new bill will be funded entirely or in any part by grant moneys. The notice of funding requirement directs the state agency that will oversee the program to submit notice to the legislative council staff when adequate funding for the program is received. The bill also requires each new bill that creates a program funded entirely or in any part by grant moneys to include a repeal clause specifying the provisions of the bill that rely on grant moneys and that those provisions will be repealed upon receipt of notice by the revisor of statutes that the program has not received sufficient grant funding.

If the legislative council staff has not received notice of funding within 18 months after the effective date of the provisions of the new bill that are dependent upon grant funding, the legislative council staff is required to include the new bill on a list of bills that have not received sufficient grant funding and to submit the list to the president of the senate, the speaker of the house of representatives, and the revisor of statutes. Delivery of the list by the legislative council staff serves as notification to the revisor of statutes to repeal the applicable provisions of the bills on the list.
