for reimbursement. The bill allows one year for development of the program, then the program will operate through July 1, 2027. At the conclusion of the program, the behavioral health administration (BHA), in connection with the department of health care policy and financing and the department of human services, shall prepare a one-time report for the public and behavioral health and human services committee of the house of representatives and the health and human services committee of the senate. The bill grants the BHA authority to promulgate rules related to the creation of the program.

The bill requires the behavioral health administration to create a family input form and require all behavioral health entities, recovery support services organizations, controlled substance licensed facilities, medicaid providers, hospitals, and emergency rooms to accept the family input form. The family input form allows a family member or friend of an individual to provide information or background on an individual needing mental health or behavioral health services.
