CONCERNING PROTECTION FOR PERSONS ASSISTING IN VOLUNTEER HELICOPTER SEARCH AND RESCUE OPERATIONS.

Be it enacted by the General Assembly of the State of Colorado:

SECTION 1. Legislative declaration. (1) The general assembly finds and declares that:

(a) Colorado residents and visitors enjoy outdoor recreation, and the number of people participating in outdoor and backcountry recreation activities has increased significantly in recent years;

Capital letters or bold & italic numbers indicate new material added to existing law; dashes through words or numbers indicate deletions from existing law and such material is not part of the act.

(b) Search and rescue calls are at an all-time high as outdoor recreation continues to gain popularity, particularly in Colorado's backcountry areas;

(c) Helicopters are an invaluable asset to rescue units and backcountry search and rescue teams that are searching for lost or injured individuals in Colorado's backcountry and rugged outdoor terrain;

(d) Helicopters allow rescue units and backcountry search and rescue teams to access otherwise inaccessible areas and search large areas quickly, thereby increasing the likelihood of a successful search and rescue operation and decreasing the number of volunteers needed;

(e) Due to limited resources and the necessity of conducting search and rescue operations quickly and efficiently, reliance on privately owned helicopters in the conduct of search and rescue missions in the state has increased; however, there have been major market disruptions to helicopter insurance policies in recent years, which phenomenon has decreased the willingness of private entities to volunteer the use of their helicopters for such missions; and

(f) With fewer privately owned helicopters available for backcountry search and rescue operations, many Coloradans and visitors to the state will be at greater risk in the event that they are lost or injured in Colorado's backcountry and outdoor recreation areas.

(2) Therefore, the general assembly declares that it is in the best interest of Colorado residents and visitors to the state to provide protection to private individuals and entities that volunteer the use of their helicopters during search and rescue operations by giving them immunity from civil liability while they are assisting and participating in rescue or backcountry search and rescue operations.
