Bill Summary

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <http://www.leg.state.co.us/billsummaries>.)

Under current law, a registered naturopathic doctor (ND) may use antiseptics and local anesthetics in connection with performing minor office procedures, such as repair and care of superficial lacerations and

abrasions. This authority under current law does not permit an ND to administer local anesthetics by injection. Additionally, an ND's authority to prescribe, administer, and dispense medications is limited to epinephrine to treat anaphylaxis and barrier contraceptives.

With regard to specified medications, the bill expands the authority of NDs to:

- ! Obtain a medication from a registered or licensed wholesaler, manufacturer, or prescription drug outlet;
- ! Administer, which includes direct application of the medication to the patient; and
- ! Dispense, which includes properly packaging and providing the medication to the patient for subsequent administration.

The expanded authority applies to the following actions and medications:

- ! Obtaining and administering saline, sterile water, topical antiseptics, and local anesthetics, including those with epinephrine, in connection with minor office procedures;
- ! Obtaining and administering oxygen in emergency situations;
- ! Obtaining and administering vitamins B6 and B12;
- ! Obtaining, administering, or dispensing federal food and drug administration (FDA)-regulated substances that do not require a prescription; and
- ! Obtaining and administering vaccines, in accordance with federal guidelines, for patients who are at least 18 years of age.

The bill permits an ND to obtain the specified medications from a manufacturer, wholesaler, or in-state prescription drug outlet licensed or registered by the state board of pharmacy and protects those entities from liability when providing medications to an ND in compliance with the bill and in good-faith reliance on the ND's registration information.

1 *Be it enacted by the General Assembly of the State of Colorado:*
