# A BILL FOR AN ACT CONCERNING THE DENVER-METROPOLITAN REGIONAL NAVIGATION CAMPUS GRANT TO ADDRESS HOMELESSNESS, AND, IN

# CONNECTION THEREWITH, MAKING AN APPROPRIATION.

## **Bill Summary**

(Note: This summary applies to this bill as introduced and does not reflect any amendments that may be subsequently adopted. If this bill passes third reading in the house of introduction, a bill summary that applies to the reengrossed version of this bill will be available at <a href="http://leg.colorado.gov">http://leg.colorado.gov</a>.)

The bill directs the division of housing in the department of local affairs (division) to award a grant to a local government in the Denver metropolitan area or a community partner in conjunction with a local government in order to build or acquire, and then facilitate, a regional navigation campus to respond to and prevent homelessness.

The bill requires the division, in collaboration with the department of human services and the behavioral health administration in the department of human services, to establish the application requirements, review applications, select a grant recipient, and ensure the grant is only awarded after a fair and rigorous open competition among eligible applicants.

The bill creates the regional navigation campus cash fund and requires the state treasurer to transfer \$50 million from the economic recovery and relief cash fund to the regional navigation campus cash fund on July 1, 2022.

Be it enacted by the General Assembly of the State of Colorado:

**SECTION 1. Legislative declaration.** (1) The general assembly finds and declares that:

- (a) On March 11, 2021, the federal government enacted the "American Rescue Plan Act of 2021" (ARPA), Pub.L. 117-2, pursuant to which Colorado has received \$3,828,761,790 from the federal coronavirus state fiscal recovery fund (SFRF) to be used for certain specified purposes;
- (b) These specified purposes include providing programs, services, or other assistance for populations disproportionately impacted by the COVID-19 pandemic. More specifically, federal regulations and United States treasury guidance construing the allocation of the SFRF identify a nonexclusive list of uses that address the disproportionate negative economic effects of the COVID-19 pandemic, including building stronger communities through investments in housing and neighborhoods. Services in this category alleviate the immediate economic impact of the COVID-19 pandemic on housing insecurity while addressing conditions that contributed to poor public health and economic outcomes during the pandemic, namely concentrated areas with limited economic opportunity and inadequate or poor-quality housing.

-2- 1378

(c) Under these regulations, SFRF money may be used for programs or services that address housing insecurity, lack of affordable and workforce housing, or homelessness;

- (d) As the federal department of housing and urban development stated, the COVID-19 pandemic has exacerbated our nation's already severe housing affordability crisis;
- (e) Today, one in 5 renters are behind on rent and just over 10 million homeowners are behind on mortgage payments, and people of color face even greater hardship and are more likely to have deferred or missed payments, putting them at greater risk of eviction and foreclosure;
- (f) At the same time, our nation's homelessness crisis has worsened during the pandemic as people experiencing homelessness are highly vulnerable to COVID-19 transmission, illness, and severity due to their use of congregate shelters and their high prevalence of underlying health conditions;
- (g) Colorado is no exception, as COVID-19 has been hitting lowand extremely low-income individuals and families who were already severely cost-burdened especially hard, increasing their risk of experiencing homelessness or inability to resolve their homelessness;
- (h) In the Denver metropolitan area, shelters saw a 99% increase in people experiencing homelessness for the first time between January 2020 and January 2021. The number of deaths due to overdose among people experiencing homelessness in Denver county increased by 34% from 2020 to 2021, highlighting the need for joint efforts to address substance use disorders among those experiencing homelessness.
- (i) There is currently a lack of both transitional and supportive housing and lack of access to specialty care, particularly for people with

-3-

I	complex needs. Persons experiencing homelessness face many challenges
2	in accessing long-term treatment of chronic illness and are far more likely
3	to receive care in emergency departments. Without trained and dedicated
4	providers or advocates, unhoused individuals often end up in a cycle of
5	expensive treatment with little to no follow-up.
6	(2) Therefore, the general assembly finds and declares it is within
7	the interest of the state to create a regional campus for individuals
8	experiencing homelessness to help alleviate the need that has been
9	exacerbated by the COVID-19 pandemic.
10	SECTION 2. In Colorado Revised Statutes, add 24-32-726 as
11	follows:
12	24-32-726. Denver-metropolitan regional navigation campus
