(Note: This summary applies to this resolution as introduced and does not reflect any amendments that may be subsequently adopted. If this resolution passes third reading in the house of introduction, a resolution summary that applies to the reengrossed version of this resolution will be available at <http://www.leg.state.co.us/billsummaries>.)

The resolution doubles the number of signatures required for an initiative petition that amends the state constitution. It also adds a new requirement that a portion of those signatures be collected from each congressional district in the state. For each district, this geographic distribution currently equals 1% of the votes cast for the secretary of state, but this percentage will change if the number of state congressional districts changes. An initiative petition that includes both state legislation, which includes statutory changes, and a constitutional amendment must meet the signature requirements for a constitutional amendment. Neither the increased signature requirement nor the geographic distribution requirement applies to a measure that only repeals any provision from any amendment approved by voters prior to 2015.
