SENATE
Amended 2nd Reading
April 22, 2022

1, 2022.

The plan is required to:

- Include recruitment methods to increase and diversify the behavioral health-care provider workforce;
- Require the BHA to partner with the department of higher education to better prepare the future behavioral health-care provider workforce for public sector service, to develop paid job shadowing and internship opportunities, and to develop partnerships with learning facilities and training centers;
- Include strategies for the BHA to work with community colleges and other institutions of higher education to recruit residents of health professional shortage areas, with the goal of educating these individuals in behavioral health-care fields so that they will return to practice in areas of need;
- In collaboration with institutions of higher education, including the community college system, create a new program to help behavioral health-care providers advance in their respective fields;
- Require the BHA to expand the peer support professional workforce; and
- Through an interagency agreement with other state agencies, raise awareness among health-care providers concerning opportunities to invest in and strengthen their behavioral health-care staff.

The bill requires the division of professions and occupations in the department of regulatory agencies (DORA) to make recommendations to expand the portability of existing credentialing requirements and behavioral health-care practice through telehealth.

The bill requires the BHA to:

- In collaboration with DORA, establish workforce standards that strengthen the behavioral health-care provider workforce and increase opportunities for unlicensed behavioral health-care providers;
- Work with other state agencies to reduce the administrative burden across agencies to ensure behavioral health-care providers have additional time to focus on patient care;
- Collaborate with other state agencies on behavioral health-care issues;
- Use the learning management system to develop and implement a comprehensive, collaborative, and cross-system training certification and training curriculum of evidence-based treatment and evidence-based criminal justice approaches for behavioral health-care providers

working in programs to obtain a criminal justice treatment provider endorsement; and

- Develop methods to strengthen Colorado's current behavioral health-care provider workforce.

The department is required to provide an overview of the BHA's progress toward addressing the behavioral health-care provider workforce shortage during the hearings held prior to the regular session of the general assembly under the "State Measurement for Accountable, Responsive, and Transparent (SMART) Government Act".

From the behavioral and mental health cash fund, the general assembly shall appropriate:

- \$52 million to the BHA for the purposes outlined in the bill; and
- \$20 million to the Colorado health services corps fund to provide student loan repayment for behavioral health-care providers and candidates for licensure and to award scholarships to addiction counselors.

1 *Be it enacted by the General Assembly of the State of Colorado:*

2 **SECTION 1. Legislative declaration.** (1) The general assembly
3 hereby finds and declares that, to ensure Colorado has a high-quality,
4 trained, culturally responsive, and diverse behavioral health-care provider
5 workforce that delivers improved access to behavioral health-care
6 services, it is the intent of the general assembly to direct the behavioral
7 health administration to create and implement a plan to expand,
8 strengthen, and invest in the behavioral health-care provider workforce
9 that outlines how to:

10 (a) Promote and recruit new and existing behavioral health-care
11 providers in Colorado;

12 (b) Create opportunities for behavioral health-care providers to
13 advance in their field;

14 (c) Increase the number of peer support professionals across the
15 state;

16 (d) Support rural communities in developing the skills of their

1 residents;

2 (e) Offer student loan forgiveness programs and student
3 scholarships;

4 (f) Expand telehealth options; and

5 (g) Increase flexibility concerning credentialing and licensing
6 reciprocity among states.

7 (2) The general assembly further finds that the plan implemented
8 by the behavioral health administration must be based on the work of the
9 behavioral health workforce development workgroup as reflected in the
10 December 2021 "Stakeholder Recommendations to Address the
11 Behavioral Workforce Shortage" and the final report of the behavioral
12 health transformational task force.

13 (3) (a) The general assembly further finds that:

14 (I) During the COVID-19 pandemic, the need for behavioral
15 health-care services from qualified behavioral health-care providers
16 increased substantially;

17 (II) During this unprecedented time, Coloradans may have lost
18 access to or encountered decreased access to behavioral health-care and
19 mental health providers;

20 (III) Since the COVID-19 pandemic began, rates of psychological
21 distress have increased alongside symptoms of anxiety, depression, and
22 other behavioral and mental health disorders, including substance use
23 disorders; and

24 (IV) A plan to expand and strengthen the behavioral health-care
25 provider workforce in this state will increase the number of behavioral
26 health-care providers and aid in the control and alleviation of behavioral
27 health issues, including access to care, that were brought on and

1 exacerbated by the COVID-19 pandemic.

2 (b) The general assembly declares that:

3 (I) The creation and implementation of a behavioral health-care
4 provider workforce plan and the requirement for the behavioral health
5 administration to take other specific actions designed to expand access to
6 behavioral health care are intended to respond to the negative public
7 health impacts of COVID-19 on the behavioral health-care provider
8 workforce and on the people seeking behavioral health-care services,
9 especially on priority populations;

10 (II) The plan and other targeted actions required by part 3 of
11 article 60 of title 27, Colorado Revised Statutes, and the activities related
12 to the implementation of the plan are important government services;

13 (III) The federal government enacted the "American Rescue Plan
14 Act of 2021", Pub.L. 117-2, referred to in this section as the "federal act",
15 to provide support to state, local, and tribal governments in responding to
16 the negative public health impacts of the COVID-19 pandemic; and

17 (IV) Expanding and strengthening the behavioral health-care
18 provider workforce through the implementation of this act is an
19 appropriate use of the money transferred to Colorado under the federal
20 act.

21 (4) The general assembly further finds that:

22 (a) Providing additional funding for scholarships and loan
23 repayment for behavioral health-care providers and licensure candidates
24 will increase the number of behavioral health-care providers necessary
25 to expand access to care by those who suffer from the negative impacts
26 brought on by the COVID-19 pandemic;

27 (b) Allowing the primary care office to more easily address the

1 growing behavioral health crisis is an important government service; and
2 (c) Increasing funding to the primary care office for loan
3 repayment and scholarships for behavioral health-care providers is an
4 appropriate use of the money transferred to Colorado under the federal
5 act.
