Section 1 of the bill:

- ! Authorizes the state treasurer, with sole discretion as to timing, to enter into lease-purchase agreements on behalf of the state to finance capital construction projects that improve the energy efficiency of state buildings or facilities;
- ! Specifies the process, including required executive agency and legislative committee approvals, for determining which projects are to be financed through the lease-purchase agreements;
- ! Authorizes the issuance of certificates of participation (COPs) in connection with the lease-purchase agreements and limits the total par value of the COPs that may be issued to \$73,000,000;
- ! Requires a lease-purchase agreement to include provisions that:
 - ! Specify that payment of the state's obligations under the agreement are subject to annual appropriation and do not create any indebtedness of the state;
 - ! Indicate that the sole security available to the lessor if the state does not renew the agreement is the property that is the subject of the nonrenewed agreement; and
 - ! Allow the state to receive title to the real and personal property that is the subject of the agreement on or prior to the expiration of the entire term of the agreement, including all optional renewal terms;
- ! Allows only a building or facility subject to an energy performance contract that is under consideration by the office of the state architect as of 30 days following the effective date of the bill to be the subject of a lease-purchase agreement;
- ! Specifies that interest paid under a lease-purchase agreement, including interest represented by COPs, is exempt from state income tax;
- ! Requires the state treasurer to coordinate with the office of state planning and budgeting in regard to the schedule of lease payments required in connection with any lease-purchase agreement; and
- ! Creates the energy efficiency project fund and specifies that:
 - ! The fund shall consist of moneys received by the state from any sale of COPs, energy cost savings resulting from capital construction projects financed

through lease-purchase agreements, any other legally available moneys that may be appropriated or transferred to the fund, and all interest and income derived from the deposit and investment of moneys in the fund; and

! Moneys in the fund may be expended solely for the purposes of completing projects being financed by lease-purchase agreements and paying the obligations of the state under such agreements.
