**Public Act No. 24-83**

***AN ACT ADOPTING THE NURSE LICENSURE COMPACT.***

Be it enacted by the Senate and House of Representatives in General Assembly convened:

Section 1. (NEW) (*Effective from passage*) On and after October 1, 2025, until January 1, 2028, the Nurse Licensure Compact is hereby enacted into law and entered into by the state of Connecticut with any and all jurisdictions legally joining therein in accordance with its terms. The compact is substantially as follows:

NURSE LICENSURE COMPACT

ARTICLE I

FINDINGS AND DECLARATION OF PURPOSE

(a) The party states find that:

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws;

(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public;

(3) The expanded mobility of nurses and the use of advanced

**House Bill No. 5058**

communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation;

(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex;

(5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states; and

(6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

(b) The general purposes of the compact are to:

(1) Facilitate the states' responsibility to protect the public's health and safety;

(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation;

(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation and adverse actions;

(4) Promote compliance with the laws governing the practice of nursing in each jurisdiction;

(5) Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses;

(6) Decrease redundancies in the consideration and issuance of nurse licenses; and

**House Bill No. 5058**

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

ARTICLE III

GENERAL PROVISIONS AND JURISDICTION

(a) A multistate license to practice registered or licensed practical/vocational nursing issued by a home state to a resident in such state shall be recognized by each party state as authorizing a nurse to practice as a registered nurse (RN) or as a licensed practical/vocational nurse (LPN/VN), under a multistate licensure privilege, in each party state.

(b) A state shall implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining such state's criminal records.

(c) Each party state shall require the following for an applicant to obtain or retain a multistate license in the home state:

(1) The applicant meets the home state's qualifications for licensure

**House Bill No. 5058**

or renewal of licensure, including all other applicable state laws;

(2) The applicant (A) graduated or is eligible to graduate from a licensing board-approved RN or LPN/VN prelicensure education program, (B) graduated from a foreign RN or LPN/VN prelicensure education program that is (i) approved by the authorized accrediting body in the applicable country, and (ii) verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program, (C) if a graduate of a foreign prelicensure education program, has not taught in English or, if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing and listening, (D) successfully passed a National Council Licensure Examination for Registered Nurses or a National Council Licensure Examination for Practical Nurses administered by the National Council of the State Boards of Nursing, or a nationally recognized predecessor to said examinations, as applicable, (E) is eligible for or holds an active, unencumbered license, (F) submitted, in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the Federal Bureau of Investigation and the agency responsible for retaining such state's criminal records, (G) has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law, (H) has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis, (I) is not enrolled in an alternative program, (J) is subject to self-disclosure requirements regarding current participation in an alternative program, and (K) has a valid Social Security number.

**House Bill No. 5058**

including, but not limited to, revocation, suspension, probation or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including, but not limited to, a cease and desist action. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by a remote state.

(e) A nurse practicing in a party state shall comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care and shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege shall subject a nurse to the jurisdiction of the licensing board, the courts and the laws of the party state in which the client is located at the time service is provided.

(f) Any individual not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state, except the single-state license granted to such individual shall not be recognized as granting the privilege to practice nursing in any other party state. Nothing in the compact shall affect the requirements established by a party state for the issuance of a single-state license.

(g) Any nurse holding a home state multistate license on the effective date of the compact may retain and renew the multistate license issued by the nurse's then-current home state, provided:

(1) A nurse who changes primary state of residence after the compact's effective date shall meet all applicable requirements of subsection (c) of this article of the compact to obtain a multistate license from a new home state;

**House Bill No. 5058**

(2) A nurse who fails to satisfy the multistate licensure requirements of subsection (c) of this article of the compact due to a disqualifying event occurring after the compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact.

ARTICLE IV

APPLICATIONS FOR LICENSURE IN A PARTY STATE

(a) Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

(b) A nurse may hold a multistate license issued by the home state in only one party state at a time.

(c) If a nurse changes primary state of residence by moving from one party state to another party state, the nurse shall apply for licensure in the new home state, and the multistate license issued by the prior home state shall be deactivated in accordance with applicable rules adopted by the Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact.

(1) The nurse may apply for licensure in advance of a change in primary state of residence.

**House Bill No. 5058**

(2) A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

(d) If a nurse changes primary state of residence by moving from a party state to a non-party state, the multistate license issued by the prior home state shall convert to a single-state license that is valid only in the former home state.

ARTICLE V

ADDITIONAL AUTHORITIES INVESTED IN PARTY STATE  
LICENSING BOARDS

(a) In addition to the other powers conferred by state law, a licensing board shall have the authority to:

(1) Take adverse action against a nurse's multistate licensure privilege to practice within the licensing board's party state, provided:

(A) Only the home state shall have the power to take adverse action against a nurse's license issued by such home state; and

(B) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action;

(2) Issue a cease and desist order or impose an encumbrance on a nurse's authority to practice within such party state;

(3) Complete any pending investigation of a nurse who changes such nurse's primary state of residence during the course of such investigation. The licensing board may take any appropriate action and

**House Bill No. 5058**

shall promptly report the conclusions of any such investigation to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such action;

(4) Issue a subpoena for both hearings and investigations that require the attendance and testimony of witnesses, including, but not limited to, for the production of evidence. A subpoena issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction according to the practice and procedure of such court applicable to subpoenas issued in a proceeding pending before such court. The issuing authority shall pay any witness fees, travel expenses, mileage and other fees required by the service statutes of the state in which the witnesses or evidence are located;

(5) Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the Federal Bureau of Investigation for criminal background checks, receive the results of the Federal Bureau of Investigation record search on criminal background checks and use the results in making licensure decisions;

(6) If otherwise permitted by state law, recover from the affected nurse the costs of any investigation and the disposition of any case resulting from any adverse action taken against such nurse; and

(7) Take adverse action based on the factual findings of the remote state, provided the licensing board follows its own procedures for taking such adverse action.

(b) If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have

**House Bill No. 5058**

been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

(c) Nothing in the compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

ARTICLE VI

COORDINATED LICENSURE INFORMATION SYSTEM AND  
EXCHANGE OF INFORMATION

(a) All party states shall participate in a coordinated licensure information system of all licensed RNs and licensed LPNs/VNs. Such system shall include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

(b) The Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection and exchange of information under the compact.

(c) All licensing boards shall promptly report to the coordinated licensure information system any adverse action, significant investigative information, denials of applications, including, but not limited to, the reasons for such denials, and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under

**House Bill No. 5058**

state law.

(d) Any significant investigative information and participation in nonpublic or confidential alternative programs reported pursuant to subsection (c) of this article of the compact shall be transmitted through the coordinated licensure information system only to party state licensing boards.

(e) Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that shall not be shared with non-party states or disclosed to other entities or individuals without the express permission of the contributing state.

(f) Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with non-party states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

(g) Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing such information shall also be expunged from the coordinated licensure information system.

(h) The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state that shall include, at a minimum:

- (1) Identifying information;
- (2) Licensure data;
- (3) Information related to alternative program participation; and

compact, as determined by rules of the Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact.

(i) The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

(1) The commission is an instrumentality of the party states;

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings; and

(3) Nothing in the compact shall be construed to be a waiver of sovereign immunity.

(b) Membership, voting and meetings:

Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring

**House Bill No. 5058**

The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and provide a full and accurate summary of actions taken, including, but not limited to, the reasons for such actions and a description of the views expressed at the meeting. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

(d) The commission shall publish its bylaws and rules and any amendments to such bylaws and rules in a convenient form on the Internet web site of the commission.

ARTICLE VIII

RULEMAKING

(a) The Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted pursuant to this article. Each rule and amendment shall become binding as of the date specified in such rule or amendment and shall have the same force and effect as provisions of the compact.

(b) Each rule and each amendment to a rule shall be adopted at a regular or special meeting of the commission.

**House Bill No. 5058**

(c) Prior to promulgation and adoption of a final rule by the commission, and at least sixty days in advance of the meeting at which such rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

(1) On the Internet web site of the commission; and

(2) On the Internet web site of each licensing board or the publication in which each state would otherwise publish proposed rules.

(d) The notice of proposed rulemaking shall include:

(1) The proposed time, date and location of the meeting in which the rule will be considered and voted upon;

(2) The text of the proposed rule or amendment, and the reason for the proposed rule or amendment;

(3) A request for comments on the proposed rule from any interested person; and

(4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

(e) Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions and arguments, which shall be made available to the public.

(f) The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

(g) The commission shall publish the place, time and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person

**House Bill No. 5058**

who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings shall be recorded, and a copy of the recording shall be made available upon request.

(2) Nothing in this subsection shall be construed to require a separate hearing on each rule. Rules may be grouped for the convenience of the commission at a hearing required by this subsection.

(h) If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

(i) Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

(k) Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, provided the usual rulemaking procedures provided in the compact shall be retroactively applied to the rule as soon as reasonably possible, but in no event later than ninety days after the effective date of the rule. For the purposes of this subsection, an emergency rule is one that shall be adopted immediately in order to:

(1) Meet an imminent threat to public health, safety or welfare;

(2) Prevent a loss of commission or party state funds; or

(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

**House Bill No. 5058**

(l) The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency or grammatical errors. Public notice of any revision shall be posted on the Internet web site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting of such revision. The revision may be challenged only on the ground that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision shall take effect without further action. If the revision is challenged, the revision shall not take effect without the approval of the commission.

ARTICLE IX

OVERSIGHT, DISPUTE RESOLUTION AND ENFORCEMENT

(a) Oversight:

(1) Each party state shall enforce the compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent.

(2) The Interstate Commission of Nurse Licensure Compact Administrators established pursuant to Article VII of the compact may receive service of process in any proceeding that may affect the powers, responsibilities or actions of the commission and shall have standing to intervene in such proceeding for all purposes. Failure to provide service of process in such proceeding to the commission shall render a judgment or order void as to the commission, compact or promulgated rules.

(b) Default, technical assistance and termination:

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under the compact

**House Bill No. 5058**

or the promulgated rules, the commission shall:

(A) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default or any other action to be taken by the commission; and

(B) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state's membership in the compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges and benefits conferred by the compact may be terminated on the effective date of termination. A cure of the default shall not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

(4) A state whose membership in the compact has been terminated shall be responsible for all assessments, obligations and liabilities incurred through the effective date of termination, including, but not limited to, an obligation that extends beyond the effective date of termination.
