

General Assembly

January Session, 2025

***Raised Bill No. 6916***

LCO No. 3920

Referred to Committee on ENVIRONMENT

Introduced by:  
(ENV)

***AN ACT CONCERNING THE USE OF NEONICOTINOIDS.***

Be it enacted by the Senate and House of Representatives in General Assembly convened:

1 Section 1. (NEW) (*Effective from passage*) (a) For purposes of this  
2 section, "environmental emergency" means the occurrence of any pest  
3 that presents an imminent risk of significant harm or injury to public  
4 health or to the environment, and "neonicotinoid" has the same meaning  
5 as provided in section 22-61k of the general statutes, as amended by this  
6 act.

7 (b) On and after January 1, 2028, no person shall use or apply any  
8 neonicotinoid to treat any: (1) Golf course; (2) turf grass; (3) lawn; (4)  
9 playing field; (5) outdoor ornamental plant; (6) property owned by or  
10 leased to the state or any municipality; or (7) corn, wheat or soybean.  
11 The provisions of this subsection shall not apply to neonicotinoid  
12 applications made within one foot of a building foundation's perimeter  
13 to manage structural pests.

14 (c) (1) The Commissioner of Energy and Environmental Protection  
15 may issue a written order to suspend the provisions of subsection (b) of

16 this section if the commissioner determines that: (A) An environmental  
17 emergency exists; (B) the use of a neonicotinoid will be effective in  
18 addressing such environmental emergency; (C) the use of a  
19 neonicotinoid will not cause unreasonable adverse effects on the  
20 environment, including on nontarget organisms, surface water quality  
21 and groundwater quality; and (D) no other less harmful pesticide or pest  
22 management practice will be effective to address such environmental  
23 emergency. Any order issued pursuant to this subdivision shall be for a  
24 period of not more than one year and shall constitute a public record.  
25 The commissioner shall make any such order publicly available on the  
26 Department of Energy and Environmental Protection's Internet web  
27 site.

28 (2) Any order issued pursuant to subdivision (1) of this subsection  
29 shall: (A) Provide the basis for the determinations made by the  
30 commissioner pursuant to subdivision (1) of this section; (B) specify the  
31 neonicotinoid pesticides, uses and purposes to which such order  
32 applies; and (C) specify such order's geographic scope, start date and  
33 duration.

34 (3) Any order issued pursuant to subdivision (1) of this subsection  
35 may establish restrictions related to such neonicotinoid use for the  
36 purpose of minimizing harm to public health and the environment,  
37 including, but not limited to, any harm to nontarget organisms, surface  
38 water quality and groundwater quality.

39 Sec. 2. (NEW) (*Effective from passage*) (a) For purposes of this section,  
40 "unreasonable adverse effects on the environment" has the same  
41 meaning as provided in subsection (z) of section 22a-47 of the general  
42 statutes and "neonicotinoid" has the same meaning as provided in  
43 section 22-61k of the general statutes, as amended by this act.

44 (b) On and after January 1, 2029, no person shall distribute, sell, offer  
45 for sale or use any agricultural seed for corn, wheat or soybean if such  
46 seed is treated with a neonicotinoid unless a waiver is issued by the

47 Commissioner of Agriculture to the user of such seed pursuant to  
48 subsection (c) of this section.

49 (c) (1) The Commissioner of Agriculture may, in consultation with  
50 the Commissioner of Energy and Environmental Protection, issue a  
51 waiver to allow the use of agricultural seeds treated with a  
52 neonicotinoid for the production of agricultural commodities only upon  
53 application by a person who has (A) completed an integrated pest  
54 management training; (B) conducted a pest risk assessment; and (C)  
55 submitted to the Commissioner of Agriculture a pest risk assessment  
56 report. The Commissioner of Agriculture may issue such waiver if, after  
57 review of the requisite pest risk assessment report, the Commissioner of  
58 Agriculture determines that: (i) The occurrence of a pest presents a  
59 significant risk of imminent harm, injury or loss to agricultural crops;  
60 (ii) the use of agricultural seeds treated with a neonicotinoid will be  
61 effective in addressing the subject pest risk; (iii) the use of agricultural  
62 seeds treated with a neonicotinoid will not cause unreasonable adverse  
63 effects on the environment, including, but not limited to, nontarget  
64 organisms, surface water quality and groundwater quality; and (iv) no  
65 other less harmful seed treatment, pesticide or pest management  
66 practice will be effective in addressing the pest risk. Any waiver issued  
67 pursuant to this subdivision shall be for a period not to exceed one year  
68 and shall, in addition to all applicable application materials, constitute  
69 a public record. The commissioner shall make any such application and  
70 application materials available on the Department of Agriculture's  
71 Internet web site.

72 (2) Any waiver issued pursuant to subdivision (1) of this subsection  
73 shall: (A) Provide the basis for the determinations made by the  
74 Commissioner of Agriculture pursuant to subdivision (1) of this  
75 subsection; (B) specify the waiver's geographic scope, which may  
76 include only those properties identified in the applicant's pest risk  
77 assessment report; and (C) specify the waiver's start date and duration.

78 (d) The Commissioner of Agriculture, in consultation with the

79 Commissioner of Energy and Environmental Protection and the  
80 Director of the Connecticut Agricultural Experiment Station, may adopt  
81 regulations, in accordance with the provisions of chapter 54 of the  
82 general statutes, for the issuance of waivers pursuant to subsection (c)  
83 of this section. Such regulations may establish fees for any such waiver  
84 application for the purpose of defraying associated administrative costs.  
85 Any such fee collected in accordance with this subsection shall be  
86 deposited in the General Fund.

87 Sec. 3. Section 22-61k of the general statutes is repealed and the  
88 following is substituted in lieu thereof (*Effective from passage*):

89 Not later than January 1, 2017, the Commissioner of Agriculture, in  
90 collaboration with the Connecticut Agricultural Experiment Station and  
91 the Department of Energy and Environmental Protection, shall develop  
92 best practices for minimizing the airborne liberation of neonicotinoid  
93 insecticide dust from treated seeds and mitigating the effects of such  
94 dust on pollinators. Such best practices shall include, but not be limited  
95 to: (1) Methods to minimize such dust when treated seeds are dispensed  
96 from a seed bag into seed planter equipment; (2) guidance on the  
97 positioning of the vacuum system discharge of seed planter equipment  
98 to direct such discharge toward the soil; (3) time frames for the mowing  
99 of flowering vegetation located next to crop fields; (4) identification of  
100 weather conditions that minimize drift of such dust; and (5) suggestions  
101 for the use of seed lubricants to effectively minimize the drift of such  
102 dust. Each such state agency shall make the best practices developed  
103 pursuant to this section available to farmers, any person who owns,  
104 operates or manages a farm or an agricultural facility and the general  
105 public by posting such best practices on the Internet web site of such  
106 state agency not later than February 15, 2017. For purposes of this  
107 section, section 22-90a, subsection (l) of section 22a-50, sections 22a-61a  
108 and 22a-61b, sections 1 and 2 of this act and section 6 of public act 16-17,  
109 "neonicotinoid," means any pesticide that acts selectively on the  
110 nicotinic acetylcholine receptors of an organism, including clothianidin,  
111 dinotefuran, imidacloprid, acetamiprid, thiamethoxam and any other

112 such pesticide that the Commissioner of Energy and Environmental  
113 Protection, after consultation with the Connecticut Agricultural  
114 Experiment Station, determines will result in the death of fifty per cent  
115 or more of a population of bees when two micrograms or less of such  
116 pesticide is applied to each bee within such population.

This act shall take effect as follows and shall amend the following sections:		
Section 1	<i>from passage</i>	New section
Sec. 2	<i>from passage</i>	New section
Sec. 3	<i>from passage</i>	22-61k

**Statement of Purpose:**

To restrict the use of neonicotinoids for certain commercial and agricultural applications.

*[Proposed deletions are enclosed in brackets. Proposed additions are indicated by underline, except that when the entire text of a bill or resolution or a section of a bill or resolution is new, it is not underlined.]*
