As used in this chapter, unless the context otherwise requires:

(2) "Amortization of unfunded liabilities" means: (A) For fiscal years ending on or before June 30, 2019, a systematic program of annual payments determined as a level per cent of expected member annual salaries in lieu of a lump sum payment; and (B) for fiscal years ending on or after June 30, 2020, a systematic program of annual payments, transitioning equally over five consecutive fiscal years from a level per cent of expected annual member salaries to a level payment, in lieu of a lump sum payment.

(3) "Annual salary" means the annual salary rate for service as a Connecticut teacher during a school year but not including unused sick leave, unused vacation, terminal pay, coaching or extra duty assignments, unless compensation for coaching or extra duty assignment was included in salary for which contributions were made prior to July 1, 1971. In no event shall annual salary include amounts determined by the board to be included for the purpose of inflating the member's average annual salary. The inclusion in annual salary of amounts paid to the member, in lieu of payment by the employer for the cost of benefits, insurance, or individual retirement arrangements which in prior years had been paid by the employer and not included in the member's annual salary, shall be prima facie evidence that such amounts are included for the purpose of inflating the member's average annual salary. Annual salary shall not (A) include payments the timing of which may be directed by the member, (B) include payments to a superintendent pursuant to an individual contract between such superintendent and a board of education, of amounts which are not included in base salary, or (C) exceed the maximum amount allowed under Section 401(a)(17) of the Internal Revenue Code for the applicable limitation year, provided in no event shall the limitation under Section 401(a)(17) of the Internal Revenue Code apply to the annual salary of a member whose membership began prior to January 1, 1996, if such limitation would reduce the amount of the member's annual salary below the amount permitted for calculation of the member's retirement benefit under chapter 167a, without regard to the limitation under Section 401(a)(17) of the Internal Revenue Code. Annual salary shall include amounts paid to the member during a sabbatical leave during which mandatory contributions were remitted, provided such member returned to full-time teaching for at least five full years following the completion of such leave.

The board shall render a written decision within sixty days of receipt of such request for reconsideration.

Sec. 8. Section 10-183aa of the general statutes is repealed and the following is substituted in lieu thereof (*Effective July 1, 2021*):

(a) (1) An active member is eligible for a disability allowance if he or she has [(1)] (A) become disabled as a result of any sickness or injury incurred in the performance of his or her duty as a teacher, without regard to the member's accumulated years of service at the time the disability is incurred; or [(2)] (B) accumulated at least five years of service in the public schools and becomes disabled, without regard to whether the disability was incurred in the performance of his or her duty as a teacher.

(2) Any active member seeking a disability allowance shall submit to the board a formal application for disability allowance, which shall include the following: (A) The member's application; (B) the member's birth certificate or, in lieu thereof, a notarized statement supported by other evidence satisfactory to the board; (C) records of service, if such records are required by the board to determine a salary rate or years of creditable service; (D) a physician's statement of health for the member, including, but not limited to, medical reports and office notes from such physician; (E) in the case of a member who is married, a marriage certificate; (F) an employer's statement regarding work performance, attendance records and any other information regarding the member's disability; (G) the member's statement outlining the effect his or her impairment has on the ability to perform the duties of his or her occupation; and (H) any other documentation required by the board. For any formal application for disability allowance filed on or after July 1, 1986, upon a finding by the board that extenuating circumstances

Senate Bill No. 1080

relating to the health of an active member caused a delay in the filing of such member's complete formal application for disability allowance, the board may deem such application to have been filed up to three months earlier than the actual date of such filing.

(b) The disability allowance is computed as follows: Two per cent times credited service to the date of disability multiplied by average annual salary, provided such allowance shall not be less than fifteen per cent or more than fifty per cent of the member's average annual salary. In no case shall such disability allowance, less cost of living adjustments, plus any initial award of Social Security benefits and workers' compensation, exceed seventy-five per cent of the member's average annual salary.

(c) The board shall designate a medical committee to be composed of no more than five physicians. If required, other physicians may be employed to report on special cases. Such medical committee shall review each application for a disability allowance and shall make findings and recommendations in writing to the board. The medical committee shall perform additional examinations or case reviews as deemed necessary by the board. Members of such committee shall receive compensation for their services at a rate to be determined by the board.

(d) The disability allowance being paid to a member shall cease when and if the disability ends. The board may determine that a member's disability has ended if it finds, upon the recommendation of its medical committee, that the member has failed to pursue an appropriate program of treatment. In either event, such member shall receive credited service for the years he received such disability allowance subject to a maximum total credit of thirty years, or actual years of credited service to the date the disability commenced, whichever is greater. Such member, if eligible, may then (1) retire on a normal, early or proratable retirement benefit, or (2) retain a vested right to a deferred

Senate Bill No. 1080

normal, early or proratable retirement benefit. Upon attainment of the member's normal retirement date, as determined by his age and credited service, including the credited service granted by this subsection, the member's disability allowance shall convert to a normal or other service retirement, which shall be payable either in the normal form or under an optional payment form under section 10-183j. The board may require periodic medical examinations.

(e) No credit for a period of service of any kind prior to the months in which contribution therefor is made shall be given under this chapter or any special act in determining service in connection with an application for disability allowance other than for injury received in performance of duty as a teacher if such disability occurred within five years after contributions and required interest on account of such period were paid in full. The foregoing limitation shall not apply to (1) any reinstatement of prior Connecticut teaching service, or (2) credit obtained immediately after transfer from the state employees retirement system under this chapter for service previously credited in said system; but in the case of such transfer, no allowance on account of disability occurring within such five-year period, other than for injury received in performance of duty as a teacher, shall exceed the benefit which would have been payable by said system if transfer had not been made.

(f) During the first twenty-four months of payment of the disability allowance to a member, twenty per cent of all of such member's outside earned income or wages shall be offset against the disability allowance payable, unless the board determines that such earned income or wages are being paid as part of the rehabilitation of the member. At the expiration of such twenty-four-month period, if the total of the disability allowance and outside earned income exceeds one hundred per cent of average annual salary, the disability allowance will be reduced by the amount of such excess over one hundred per cent. The board shall adopt regulations, in accordance with the provisions of chapter 54, concerning

Senate Bill No. 1080

procedures for verification of the income of members in receipt of a disability allowance.

(g) All members of the teachers' retirement system who are receiving disability payments under subsection (e) of section 10-183g of the general statutes, revision of 1958, revised to 1979, may, using a form provided by the board, elect to have their disability payments recomputed with regard to the percentage basis and pursuant to the provisions of this section and section 10-183bb. Such election shall not be revocable.

Sec. 9. (NEW) (*Effective July 1, 2021*) (a) The Teachers' Retirement Board shall establish a rollover account for each active, inactive and disabled member who submits a formal application of retirement, as defined in section 10-183b of the general statutes, as amended by this act. Any such member may make rollover contributions of any pretax assets maintained in an eligible retirement plan to such rollover account at any time within two months prior to such member's retirement date, as designated in such application. The board shall not accept any such rollover contribution after a member's retirement date. For purposes of this section, "eligible retirement plan" means an eligible retirement plan as defined in Section 402(c)(8)(B) of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as amended from time to time.

(b) Commencing with retirements effective September 1, 2021, or later, any amount in a retired member's rollover account shall be distributed to such member in the form of an actuarially equivalent annuity for life, using the annuity rates adopted by the board for the selected retirement date and under the terms and conditions of the payment plan option the member selected on his or her formal application of retirement, as defined in section 10-183b of the general statutes, as amended by this act. If such member dies prior to the date of his or her retirement, the accumulated rollover funds shall be

Senate Bill No. 1080

distributed under the terms and conditions of the payment plan option the member elected on such application.

(c) The board shall adopt policies and procedures regarding the prudent and efficient operation of rollover accounts established pursuant to subsection (a) of this section, which shall include, but need not be limited to, application and payment procedures for such accounts.

(d) The funds in a member's rollover account shall be used only for distributions in accordance with subsection (b) of this section. The funds in such account may not be applied toward the purchase of additional credited service pursuant to section 10-183e of the general statutes. No interest shall be applied to any funds contained in a member's rollover account.

(e) Rollover contributions made in accordance with this section shall not be treated as contributions, as defined in section 10-183b of the general statutes, as amended by this act, and the board shall not subject such contributions to the limitations imposed under Section 415(c) of the Internal Revenue Code of 1986, or any subsequent corresponding internal revenue code of the United States, as amended from time to time.
