Nyasha Smith, Secretary
Council of the District of Columbia
1350 Pennsylvania Avenue, N.W.
Washington, DC 20004

Dear Secretary Smith,

Today, I, along with Councilmembers Robert White, Janeese Lewis George, Anita Bonds, Charles Allen, Zachery Parker, and Kenyan McDuffie, am introducing the “Eliminating Restrictive and Segregated Enclosures (“ERASE”) Solitary Confinement Act of 2023.” Please find enclosed a signed copy of the legislation.

This legislation prohibits nearly all forms of segregated confinement for individuals incarcerated at penal institutions owned, operated, and controlled by the Department of Corrections. It also limits the use of safe cells, would mandate that all residents in a DOC facility receive at least eight hours of out-of-cell time a day, and charge DOC with providing residents mental health services any time they’re placed in prolonged confinement, medical isolation, or suicide watch. An oversight provision of the bill would require DOC to collect and publish data on the ongoing use of solitary, allow residents to file special grievances, and potentially sue the agency if they’ve been subject to prolonged confinement.

In general, solitary confinement is a cruel, inhumane, and degrading mode of punishment that has been equated to torture.¹ Studies have consistently proven that solitary confinement can create or exacerbate both short- and long-term psychological and physical health issues for people placed in solitary confinement, including self-harm and suicide, anxiety and depression, and gastrointestinal and cardiovascular problems.² Solitary confinement does not properly

remedy the root problems that lead to a person's placement in solitary,³ and the economic costs of solitary far exceed any perceived benefits.⁴

Similarly, the profound stress caused by spending time in solitary confinement can lead to permanent damage to a person's identity, including changes in the brain and personality of the people subjected to it. "Depriving humans—who are naturally social beings—of the ability to interact with others can cause social pain" which affects the brain in the same way as physical pain.⁵ Additionally, the overwhelming amount of research proves that solitary confinement leads to greater recidivism and misconduct.⁶ If we care about reducing crime, we should care about solitary for that reason, too.

The deplorable conditions at the District's jails and restrictive housing units— including flooding, lack of grievance procedures, lack of mattresses, and more⁷— only exacerbate the harmful effects of solitary confinement. The conditions of safe cells in the District's jails are

³ Kayla James & Elena Vanko, *The Impacts of Solitary Confinement*, Vera Institute of Justice 5 (Apr. 2021) ("In short, solitary confinement does not improve safety and may actually lead to an increase in violence and recidivism. This is not surprising, given that people in solitary are typically denied the opportunity to participate in education, mental health or drug treatment, and other rehabilitative programs or to otherwise prepare for reentering the community.").

⁴ *Id.* at 5-6 ("The Federal Bureau of Prisons estimated in 2013 that it cost \$216 per person, per day, to hold people in solitary in the Administrative Maximum Facility at the Federal Correctional Complex in Florence, Colorado. In comparison, the estimated cost of housing people in the complex's general population was \$86 per person, per day.") (emphasis in original); see also Alison Shames et al., *Solitary Confinement: Common Misconceptions and Emerging Safe Alternatives*, Vera Institute of Justice 24 (May 2015) ("The significant fiscal costs associated with building and operating segregated housing units and facilities are due to the reliance on single-cell confinement, enhanced surveillance and security technology, and the need for more corrections staff (to handle escorts, increased searches, and individualized services).").

likewise troubling and, thus, similarly exacerbate the harms of solitary confinement for those on suicide watch.⁸

For these reasons, we must erase virtually all forms of segregated confinement for individuals incarcerated at penal institutions in the District. This legislation would produce a fairer and more humane criminal justice system in the District.

Should you have any questions, please contact my Legislative Aide Sabrin Qadi at sqadi@dccouncil.gov or (202) 834-8093.

Thank you,

Best,

Brianne K. Nadeau

A BILL

IN THE COUNCIL OF THE DISTRICT OF COLUMBIA

To prohibit segregated confinement in jails; to strictly limit the use of safe cells and require that incarcerated people with mental health emergencies receive the care to which they are entitled; to require the Department of Corrections to create a plan to eliminate segregated confinement and report to the Council the impacts of doing so.

BE IT ENACTED BY THE COUNCIL OF THE DISTRICT OF COLUMBIA, That this act may be cited as the “Eliminating Restrictive and Segregated Enclosures (“ERASE”) Solitary Confinement Act of 2023”.

19 Sec. 2. Definitions.

20 For purposes of this act, the term:

21 (a) “Appropriate healthcare” means the right to:

22 (1) Timely, responsive, respectful, and dignified attention to a resident’s
23 healthcare needs by a qualified health professional;

24 (2) Assessment, consultation, and provision of health care consistent with the
25 standard of care expected to be provided by a reasonably prudent qualified health professional in
26 the professional’s specialty area, and not limited in any way because of status as a detained or
27 incarcerated person;

28 (3) Have the qualified health professional respect a resident’s privacy and
29 confidentiality;

30 (4) Privacy and protection from inquiry by qualified health professionals
31 regarding a resident’s charges, convictions, or duration of sentences unless expressly pertinent to
32 the delivery of care;

33 (5) Freedom from physical restraints while receiving any form of healthcare,
34 unless the treating qualified health professional requests physical restraints to address a specific
35 safety concern;

36 (6) Obtain, at no cost, at the conclusion of a resident’s visit to a qualified health
37 professional providing services outside of a penal institution, copies of all records of the
38 resident’s own diagnoses, test results, treatment instructions, recommendations for further
39 treatment and evaluation, and other documents that a person who is not detained or incarcerated
40 would have a right to obtain from a qualified health professional;

41 (7) Obtain, at no cost, full or partial copies of a resident’s own medical records

42 that are created by or in the possession of either the Department or the entity providing health
43 care on behalf of the Department, upon the request of a resident, former resident, or a resident or
44 former resident’s counsel without having to file a request under the District of Columbia
45 Freedom of Information Act, D.C. Code § 2-531;

46 (8) A reasonable opportunity to discuss with a qualified health professional the
47 benefits and risks of treatment alternatives, including the risks and benefits of forgoing
48 treatment, and guidance about different courses of action;

49 (9) Ask questions about health status or recommended treatment and to have those
50 questions answered by a qualified health professional;

51 (10) Make decisions about the care they receive and have those decisions
52 respected;

53 (11) Be advised of any conflicts of interest a qualified health professional may
54 have with respect to a resident’s care;

55 (12) Obtain a second opinion from a qualified health professional providing
56 services outside of the penal institution in the same or similar specialty within a reasonable
57 amount of time in cases involving a serious risk of death or serious bodily injury;

58 (13) Coordination and integration of the care provided by a resident’s qualified
59 health professionals, including the timely provision of care by a suitable qualified health
60 professional outside of the penal institution as necessary; and

61 (14) Visitation with a resident’s “attorney in fact,” as defined in D.C. Code § 21-
62 2202.1, for the purpose of healthcare decision making, regardless of any Department policy to
63 the contrary;

64 (15) All rights enumerated in the Consumers’ Bill of Rights at D.C. Code § 7-

65 1231.04;

66 (16) Communication pursuant to the DC Language Access Act at D.C. Code § 2
67 1901 *et seq*; and

68 (17) Effective communication pursuant to Title II and Title III of the Americans
69 with Disabilities Act at 42 U.S.C. §§ 12131-34 and 12181-89.

70 (b) “Chemical restraint” means a medication that is used in addition to or in place of the
71 resident’s regular, prescribed drug regimen to control extreme behavior during an emergency,
72 but does not include medications that comprise the resident’s regular, prescribed medical
73 regimen and that are part of the resident’s treatment, even if the intended purpose is to control
74 ongoing behavior;

75 (c) “Department” means the Department of Corrections, as defined in D.C. Code § 24-
76 211.01;

77 (d) “Disciplinary housing” means the separation of a resident from other individuals for
78 the purpose of punishing the resident for a violation of the Department’s or penal institution’s
79 rules;

80 (e) “Health care” means any type of care provided by a person licensed under or
81 permitted to practice a health occupation in the District as defined in D.C. Code § 3-1201 *et seq*.
82 Healthcare includes medical care, dental care, vision care, psychiatric care, psychological or
83 other treatment for mental or behavioral health conditions, physical therapy, occupational
84 therapy, chronic care, and the provision of medication or medical supplies;

85 (f) “Medical isolation” means the isolation of a resident consistent with a finding by a
86 qualified health professional that the resident has a communicable disease for which the Centers
87 for Disease Control and Prevention recommends or authorizes isolation or quarantine, and that

88 isolation is medically necessary for that resident’s treatment or to protect other residents or staff
89 from the communicable disease;

90 (g) “Minimum out-of-cell time” means at least 8 hours daily, between 8 a.m. and 8 p.m.,
91 during which a resident is not restricted to their cell and has the opportunity to move around a
92 shared space, interact with other residents in a shared space without barriers or physical or
93 chemical restraints, participate in programming, shower, or go to the commissary, gym, and
94 recreation yard, or participate in other activities normally conducted outside of a resident’s cell;

95 (h) “Penal institution” means any penitentiary, prison, jail, or correctional facility owned,
96 operated, or controlled by the Department;

97 (i) “Physical restraint” means any mechanical device, material, or equipment attached or
98 adjacent to the resident’s body, or any manual method, that the resident cannot easily remove
99 and which restricts their freedom of movement or normal access to their body;

100 (j) “Prolonged confinement” means the denial of minimum out-of-cell time, without a
101 resident’s informed written consent;

102 (k) “Punitive measures” means the loss of any privilege, including video and phone calls,
103 recreation, reading materials, mail, or commissary, that is standardly provided to residents;

104 (l) “Qualified health professional” means a person licensed under or permitted to practice
105 a health occupation in the District as defined by D.C. Code § 3-1201.08 who is providing
106 services or treatment for which the individual is specifically licensed or is permitted to perform
107 pursuant to D.C. Code § 3-1201 *et seq.*;

108 (m) “Resident” means any individual detained or incarcerated at a penal institution;

109 (n) “Safe cell” means a suicide-resistant housing cell designed to prevent a resident from
110 inflicting serious bodily injury upon themselves or used by the Department as a place to hold and

111 continuously monitor residents placed on suicide watch;

112 (o) “Serious bodily injury” means a bodily injury or significant bodily injury that
113 involves a substantial risk of death, protracted and obvious disfigurement, protracted loss or
114 impairment of the function of a bodily member or organ, or protracted loss of consciousness;

115 (p) “Suicide precaution” means a measure used to observe a resident who is assessed by a
116 qualified health professional and determined to not be actively suicidal, but expresses suicidal
117 ideation or has a recent prior history of inflicting or attempting to inflict serious bodily injury
118 upon themselves, or a resident who denies suicidal ideation or does not threaten suicide, but
119 demonstrates other concerning behavior indicating the potential for inflicting death or serious
120 bodily injury upon themselves; and

121 (q) “Suicide watch” means a measure used to observe a resident who is assessed by a
122 qualified health professional and determined to be actively suicidal, by either threatening or
123 engaging in inflicting serious bodily injury upon themselves.

124 Sec. 3. Scope.

125 This act shall apply to all residents detained or incarcerated at the Central Detention
126 Facility, the Correctional Treatment Facility, the Central Cell Block, and any other penal
127 institution owned, operated, or controlled by the Department.

128 Sec. 4. Limitations on the Use of Prolonged Confinement.

129 (a) The Department shall provide appropriate healthcare to all residents, including those
130 subject to disciplinary housing, medical isolation, suicide precaution, and suicide watch.

131 (b) Except as provided in subsections (c) and (d) of this section, the Department shall not
132 use or impose any form of prolonged confinement on any resident for any purpose, including

133 discipline, safety, security, administrative convenience, placement on a medical or mental health
134 unit, health care need, or the prevention of suicide or self-harm.

135 (c) A resident in medical isolation may be subject to prolonged confinement, but only for
136 the time necessary to ensure the resident is no longer contagious or transmitting a communicable
137 disease.

138 (d) A qualified health professional shall reevaluate whether medical isolation is necessary
139 at an interval in accordance with guidance issued by the Centers for Disease Control and
140 Prevention or, at a minimum, every 24 hours.

141 (e) When a qualified health professional determines the resident is no longer contagious,
142 the resident shall be immediately entitled to minimum out-of-cell time, even if they remain
143 housed in a medical isolation unit.

144 (f) The removal of personal property items from a resident shall be prohibited absent an
145 individualized determination by a qualified health professional that the removal of a particular
146 item is necessary to prevent the transmitting of a communicable disease.

147 (g) A resident placed on suicide watch may be placed in prolonged confinement, subject
148 to the provisions of Section 5 of this Chapter.

149 (h) If the Department takes possession of a resident's personal property when moving the
150 resident to or from disciplinary housing, the Department shall return all personal property to the
151 resident within 6 hours of taking possession of the property, excluding any contraband as defined
152 in D.C. Code § 22-2603.02.

153 (i) Punitive measures may only be applied to a resident in response to a disciplinary
154 finding.

155 (j) At intake, and any time a resident is placed in prolonged confinement, medical
156 isolation, disciplinary housing, or under suicide precaution or suicide watch, the Department
157 shall provide the resident educational materials on mental health and substance use disorders, the
158 stigma around mental health and substance use disorders, the mental health and substance use
159 disorder treatment options available to residents from the Department, and the law, regulations,
160 and policy statements governing the use of prolonged confinement, medical isolation,
161 disciplinary housing, and suicide precaution or suicide watch. The Department shall make these
162 educational materials available within 2 hours of the intake or placement in written format, both
163 hard copy and electronic, and in video format. These educational materials must comply with the
164 DC Language Access Act at D.C. Code § 2-1901 et seq.

165 (k) The Department shall notify a resident's counsel of record any time a resident is
166 placed in prolonged confinement, medical isolation, disciplinary housing, or under suicide
167 precaution or suicide watch. If the resident does not have a counsel of record, the Department
168 shall notify the Public Defender Service for the District of Columbia.

169 Sec. 5. Limitations on the use of prolonged confinement.

170 (a) Department staff shall directly observe a resident on suicide precaution at staggered
171 intervals not to exceed every 15 minutes and document those observations.

172 (b) Department staff shall directly observe a resident on suicide watch continuously and
173 without interruption and document those observations every 15 minutes.

174 (c) Supervision aids, like cameras, can be utilized as a supplement to, but never as a
175 substitute for, direct observation by Department staff of a resident on suicide precaution or
176 suicide watch.

177 (d) A resident on suicide precaution shall never be placed in a safe cell and shall not be

178 subject to prolonged confinement or punitive measures.

179 (e) All residents on suicide precaution or suicide watch shall be entitled to attend all court
180 or parole hearings unless a qualified health practitioner makes a finding that non-attendance is
181 immediately necessary to prevent a risk of death or serious bodily injury to the resident or
182 another person.

183 (f) A resident on suicide watch shall reside in the least restrictive setting necessary to
184 reasonably assure the safety of the resident and others, as determined by a qualified health
185 professional, including housing in the general population, mental health unit, or medical
186 infirmary.

187 (g) A resident on suicide watch may be placed in a safe cell only if it is immediately
188 necessary to prevent death or serious bodily injury.

189 (h) A qualified health professional shall directly observe any resident in a safe cell a
190 minimum of every 4 hours and shall formally reassess the resident at least every 24 hours.

191 (i) Removal of a resident's clothing shall be prohibited absent an individualized
192 determination by a qualified health professional that such removal is necessary to prevent death
193 or serious bodily injury. If the individualized determination to remove a resident's clothing is
194 made, the resident shall immediately be provided with alternative safe clothing and blanket, and
195 a qualified health professional shall reassess the determination at least every 24 hours. A resident
196 shall never be without the clothing and blankets necessary to provide reasonable privacy and
197 warmth.

198 (j) The Department shall transfer a resident from a safe cell to a local hospital or another
199 appropriate healthcare facility as soon as practicable:

200 (1) Upon a determination by a qualified health care professional that the

201 Department cannot provide the resident with appropriate healthcare;

202 (2) If the resident has been held in a safe cell continuously for 48 hours; or

203 (3) Upon request of the resident.

204 (k) The Department shall examine any incident involving a completed suicide and any
205 incident involving a suicide attempt requiring hospitalization through a morbidity and mortality
206 review process, which shall be completed within 30 days of the resident's death or suicide
207 attempt.

208 (1) The review, separate and apart from other formal investigations that may be required
209 to determine the cause of death, shall include:

210 (1) Review of the circumstances surrounding the incident;

211 (2) Review of procedures relevant to the incident;

212 (3) Review of all relevant training received by involved staff;

213 (4) Review of pertinent healthcare services reports involving the resident;

214 (5) Review of any possible precipitating factors that may have caused the resident
215 to commit suicide or suffer a serious suicide attempt;

216 (6) Recommendations, if any, for changes in policy, training, physical plant,
217 healthcare services, and operational procedures; and

218 (7) A written report detailing the Department's findings, including whether each
219 recommendation was accepted or rejected and a corrective action plan specifying responsible
220 parties and timetables for completion.

221 (2) Within 5 days of the conclusion of the review process, the Department shall transmit
222 the report to the Mayor, the D.C. Council, and the Corrections Information Council.

223 (3) The Department shall publish on its website written updates on the status of the

224 corrective action plan in 30-day intervals until the plan has been fully implemented.

225 (4) All staff involved in the incident should be offered critical incident stress debriefing.

226 Sec. 6. Plan and report on the elimination of prolonged confinement

227 (a) Within 90 days after the effective date of this act, the Department shall transmit to
228 the Mayor, the Council, and the Corrections Information Council, and publish on its website a
229 written report of its plans to effectuate this act.

230 (b) The report published under subsection (a) of this section shall include:

231 (1) The number of residents who have not received minimum out-of-cell time
232 over the prior 12 months; and

233 (2) The number of residents who have been placed in disciplinary housing,
234 medical isolation, or a safe cell over the prior 12 months.

235 (c) The report published under subsection (a) of this section shall include the following
236 deidentified information about each resident:

237 (1) The cumulative number of days each resident has not received minimum out-
238 of-cell time over the prior 12 months;

239 (2) The highest consecutive number of days each resident has not received
240 minimum out-of-cell time over the prior 12 months;

241 (3) The cumulative number of days each resident has been placed in disciplinary
242 housing, medical isolation, or a safe cell over the prior 12 months;

243 (4) The highest consecutive number of days each resident has been placed in
244 disciplinary housing, medical isolation, or a safe cell over the prior 12 months;

245 (5) The basis for denying the resident minimum out-out-of-cell time;

246 (6) The basis for placing the resident in disciplinary housing, medical isolation, or

247 a safe cell, including:

248 (A) The communicable disease that is the basis for medical isolation; and

249 (B) The number of documented assessments made by a qualified health
250 professional;

251 (7) The notice and procedures followed before denying the resident minimum out-
252 of-cell time;

253 (8) The notice and procedures followed before placing the resident in disciplinary
254 housing, medical isolation, or a safe cell;

255 (9) The timing and plan for restoring the resident's out-of-cell time and any
256 known barriers to that transition; and

257 (10) The timing and plan for removing the resident from disciplinary housing,
258 medical isolation, or a safe cell, and any known barriers to that transition.

259 (d) Within 180 days after the effective date of this act, the Department shall promulgate
260 regulations and issue policy statements to amend the Department's processes for and use of
261 prolonged confinement, medical isolation, and safe cells in accordance with this act;

262 (e) Within one year after the effective date of this act, and quarterly thereafter, the
263 Department shall submit to the Mayor, the Council, and the Corrections Information Council,
264 and make available on the Department's website a written report of its use of prolonged
265 confinement, medical isolation, and safe cells.

266 (f) The reports published under subsection (e) of this section shall include deidentified
267 data on each resident placed in prolonged confinement, broken down by confinement that is the
268 result of medical isolation, a safe cell, or any other reason, for any amount of time during the
269 reporting period.

270 (g) The reports published under subsection (e) of this section shall include:

271 (1) Each resident's age, sex, gender identity, sexual orientation or other LGBTQ
272 status, race, religion, and ethnicity;

273 (2) Whether or not each resident is diagnosed with a serious mental illness, as that
274 term is defined in the current edition of The Diagnostic and Statistical Manual of Mental
275 Disorders;

276 (3) Whether or not each resident is diagnosed with a physical disability, an
277 intellectual or developmental disability, a traumatic brain injury, or any other disability, as
278 defined in 42 U.S.C. § 12102;

279 (4) The location of the prolonged confinement, broken down by unit or type of
280 unit;

281 (5) The highest consecutive number of days that each resident was in prolonged
282 confinement;

283 (6) The cumulative number of days each resident was in prolonged confinement;

284 (7) The reasons each resident was subjected to prolonged confinement;

285 (8) Whether each resident was subject to any type of physical or chemical
286 restraint while in prolonged confinement; and

287 (9) Whether each resident remains in prolonged confinement as of the time the
288 report is finalized.

289 (h) The reports published under subsection (e) of this section shall include data on the
290 filing of grievances by people held in prolonged confinement, medical isolation, or a safe cell,
291 including:

292 (1) The total number of grievances filed, reported by type of grievance;

293 (2) The number of grievances closed during the reporting period, including the
294 reason for closure, and the number of grievances that remain open; and

295 (3) The average number of days from the filing of a grievance to final resolution,
296 broken down by Informal Grievance, Formal Grievance, Level 1 Appeal, Level 2 Appeal and
297 Prolonged Confinement Grievance.

298 (i) The reports published under subsection (e) of this section shall include data on assault
299 and self-harm, including:

300 (1) The total number of residents in medical isolation who committed self-harm,
301 attempted or completed suicide, were assaulted by another resident, were subjected to a use of
302 force by a Department employee, or received an incident report or disciplinary infraction, and the
303 type of that infraction; and

304 (2) The total number of residents in a safe cell who committed self-harm,
305 attempted or completed suicide, were assaulted by another resident, were subjected to a use of
306 force by a Department employee, or received an incident report or disciplinary infraction, and the
307 type of that infraction.

308 Sec. 7. Private right of action.

309 (a) A resident or former resident may bring a civil action in the Superior Court of the
310 District of Columbia against the District or any agent or employee thereof for violation of this act
311 or of any regulation promulgated or policy statement issued there under. Relief may include:

312 (1) Injunctive relief;

313 (2) Declaratory relief;

314 (3) Liquidated damages of \$1000 per each day a resident is unlawfully held in
315 prolonged confinement;

316 (4) Compensatory damages; and

317 (5) Punitive damages.

318 (b) A resident or former resident who prevails in an action under this section shall be
319 entitled to fees and costs, including reasonable attorneys' fees and reasonable expert fees.

320 (c) Notwithstanding any D.C. law, regulation, or policy to the contrary:

321 (1) The requirements of D.C. Code § 12-309 shall not apply to an action brought
322 under this act;

323 (2) The only administrative remedy available to raise questions of compliance
324 with or treatment under this act shall be filing a Prolonged Confinement Grievance at any time
325 directly with the Director of the Department, which has 5 calendar days to respond;

326 (3) The grievance shall be considered exhausted at the time the Director responds
327 or at the conclusion of 5 calendar days regardless of whether the Director provides a response.

328 (d) The Department shall provide the resident with a grievance form, writing utensils, and
329 access to the Inmate Grievance Procedure mailbox.

330 (e) Failure to provide a resident with a grievance form, writing utensils or access to the
331 grievance mailbox shall effectively render the grievance process unavailable to the resident.

332 (f) In an action under this section, a resident or former resident's sworn statement
333 including facts that, if true, would be sufficient to show the resident or former resident had either
334 completed the grievance process or that the grievance process was unavailable to that resident,
335 shall create a rebuttable presumption that the grievance process was either completed or
336 unavailable that can only be overcome by clear and convincing evidence.

337 Sec. 8. Fiscal impact statement.

338 The Council adopts the fiscal impact statement in the committee report as the fiscal

339 impact statement required by section 4a of the General Legislative Procedures Act of 1975,
340 approved October 16, 2006 (120 Stat. 2038; D.C. Official Code § 1-301.47a).

341 Sec. 9. Effective date.

342 This act shall take effect after approval by the Mayor (or in the event of veto by the
343 Mayor, action by the Council to override the veto), a 30-day period of congressional review as
344 provided in section 602(c)(1) of the District of Columbia Home Rule Act, approved December
345 24, 1973 (87 Stat. 813; D.C. Official Code § 1-206.02(c)(1)), and publication in the District of
346 Columbia Register.
