SUMMARY ANALYSIS

The Florida Bright Futures Scholarship Program (Bright Futures Program) rewards Florida high school graduates who earn high academic achievement and enroll in postsecondary education at an eligible Florida public or private postsecondary education institution. Each of the four awards under the Bright Futures Program requires a student to perform a specified number of hours of volunteer service work to meet eligibility requirements.

Under the service work requirements, a student must also identify a civic issue or a professional area of interest, develop a plan of involvement to address the topic, and reflect and report upon the experience. Compensation or academic credit for service work performed by the student is prohibited, unless performed through specified courses.

Beginning with Florida high school students graduating in 2022-2023, the bill authorizes a student to meet eligibility requirements prescribed under each award in the Bright Futures Program through paid work.

The bill requires a student to evaluate and reflect upon his or her volunteer service or paid work experience through papers or other presentations and makes it optional for a student to identify a social or civic issue or a professional area of interest and develop a plan for personal involvement.

The bill has an indeterminate fiscal impact. See Fiscal Comments.

The bill takes effect upon becoming law.

Student Volunteer Requirements for the Florida Bright Futures Scholarship Program

Each award in the Bright Futures Program requires a student to complete a specified number of hours of volunteer service work to be eligible to receive a scholarship award. A student must meet the following service requirements:

Bright Futures Scholarship Program	Required Service Hours ³¹
FAS	100
FMS	75
FGSV	30
FGSC	30

The student's volunteer service work must be approved by the district school board, the administrators of a nonpublic school, or the DOE for home education students.³²

Each district school board and the administrators of a nonpublic school must establish approved activities and the process for documentation of service hours, including the deadline by which the hours must be completed.³³ Service work may include, but is not limited to, a business or governmental internship, work for a nonprofit community service organization, or activities on behalf of a candidate for public office.³⁴ Except for credit earned through service-learning courses,³⁵ the student may not receive payment or academic credit for service work performed.³⁶

The hours earned by a student must be documented in writing, signed by the student and the student's parent or guardian, and a representative of the organization where the work was performed.

In addition to the service hours, a student must identify a social or civic issue or a professional area that interests him or her, develop a plan for their personal involvement in addressing the issue or learning more about the area, and, through papers or presentations, evaluate and reflect upon his or her experience.³⁷

Effect of Proposed Changes

Beginning with Florida high school students graduating in 2022-2023, the bill authorizes a student to meet the eligibility requirements prescribed under each award in the Bright Futures Program through paid work. The bill does not adjust the number of hours required for each award, but rather provides a student with the option to meet the requirement through volunteer service or paid work.
