

HB 687

2013

1 A bill to be entitled
 2 An act relating to local bids and contracts for public
 3 construction works; amending s. 255.20, F.S.;
 4 eliminating specified conditions under which a local
 5 government is exempt from the requirement to
 6 competitively award contracts; providing an effective
 7 date.

8
 9 Be It Enacted by the Legislature of the State of Florida:

10
 11 Section 1. Paragraph (c) of subsection (1) of section
 12 255.20, Florida Statutes, is amended to read:

13 255.20 Local bids and contracts for public construction
 14 works; specification of state-produced lumber.—

15 (1) A county, municipality, special district as defined in
 16 chapter 189, or other political subdivision of the state seeking
 17 to construct or improve a public building, structure, or other
 18 public construction works must competitively award to an
 19 appropriately licensed contractor each project that is estimated
 20 in accordance with generally accepted cost-accounting principles
 21 to cost more than \$300,000. For electrical work, the local
 22 government must competitively award to an appropriately licensed
 23 contractor each project that is estimated in accordance with
 24 generally accepted cost-accounting principles to cost more than
 25 \$75,000. As used in this section, the term "competitively award"
 26 means to award contracts based on the submission of sealed bids,
 27 proposals submitted in response to a request for proposal,
 28 proposals submitted in response to a request for qualifications,

HB 687

2013

29 or proposals submitted for competitive negotiation. This
30 subsection expressly allows contracts for construction
31 management services, design/build contracts, continuation
32 contracts based on unit prices, and any other contract
33 arrangement with a private sector contractor permitted by any
34 applicable municipal or county ordinance, by district
35 resolution, or by state law. For purposes of this section, cost
36 includes the cost of all labor, except inmate labor, and the
37 cost of equipment and materials to be used in the construction
38 of the project. Subject to the provisions of subsection (3), the
39 county, municipality, special district, or other political
40 subdivision may establish, by municipal or county ordinance or
41 special district resolution, procedures for conducting the
42 bidding process.

43 (c) The provisions of this subsection do not apply:

44 1. If the project is undertaken to replace, reconstruct,
45 or repair an existing public building, structure, or other
46 public construction works damaged or destroyed by a sudden
47 unexpected turn of events such as an act of God, riot, fire,
48 flood, accident, or other urgent circumstances, and such damage
49 or destruction creates:

50 a. An immediate danger to the public health or safety;

51 b. Other loss to public or private property which requires
52 emergency government action; or

53 c. An interruption of an essential governmental service.

54 2. If, after notice by publication in accordance with the
55 applicable ordinance or resolution, the governmental entity does
56 not receive any responsive bids or proposals.

57 | 3. To construction, remodeling, repair, or improvement to
58 | a public electric or gas utility system if such work on the
59 | public utility system is performed by personnel of the system.

60 | 4. To construction, remodeling, repair, or improvement by
61 | a utility commission whose major contracts are to construct and
62 | operate a public electric utility system.

63 | 5. If the project is undertaken as repair or maintenance
64 | of an existing public facility. For the purposes of this
65 | paragraph, the term "repair" means a corrective action to
66 | restore an existing public facility to a safe and functional
67 | condition and the term "maintenance" means a preventive or
68 | corrective action to maintain an existing public facility in an
69 | operational state or to preserve the facility from failure or
70 | decline. Repair or maintenance includes activities that are
71 | necessarily incidental to repairing or maintaining the facility.
72 | Repair or maintenance does not include the construction of any
73 | new building, structure, or other public construction works or
74 | any substantial addition, extension, or upgrade to an existing
75 | public facility. Such additions, extensions, or upgrades shall
76 | be considered substantial if the estimated cost of the
77 | additions, extensions, or upgrades included as part of the
78 | repair or maintenance project exceeds the threshold amount in
79 | subsection (1) and exceeds 20 percent of the estimated total
80 | cost of the repair or maintenance project using generally
81 | accepted cost-accounting principles that fully account for all
82 | costs associated with performing and completing the work,
83 | including employee compensation and benefits, equipment cost and
84 | maintenance, insurance costs, and materials. An addition,

HB 687

2013

85 extension, or upgrade shall not be considered substantial if it
86 is undertaken pursuant to the conditions specified in
87 subparagraph 1. Repair and maintenance projects and any related
88 additions, extensions, or upgrades may not be divided into
89 multiple projects for the purpose of evading the requirements of
90 this subparagraph.

91 6. If the project is undertaken exclusively as part of a
92 public educational program.

93 7. If the funding source of the project will be diminished
94 or lost because the time required to competitively award the
95 project after the funds become available exceeds the time within
96 which the funding source must be spent.

97 8. If the local government competitively awarded a project
98 to a private sector contractor and the contractor abandoned the
99 project before completion or the local government terminated the
100 contract.

101 ~~9. If the governing board of the local government complies~~
102 ~~with all of the requirements of this subparagraph, conducts a~~
103 ~~public meeting under s. 286.011 after public notice, and finds~~
104 ~~by majority vote of the governing board that it is in the~~
105 ~~public's best interest to perform the project using its own~~
106 ~~services, employees, and equipment. The public notice must be~~
107 ~~published at least 21 days before the date of the public meeting~~
108 ~~at which the governing board takes final action. The notice must~~
109 ~~identify the project, the components and scope of the work, and~~
110 ~~the estimated cost of the project using generally accepted cost-~~
111 ~~accounting principles that fully account for all costs~~
112 ~~associated with performing and completing the work, including~~

113 ~~employee compensation and benefits, equipment cost and~~
114 ~~maintenance, insurance costs, and materials. The notice must~~
115 ~~specify that the purpose for the public meeting is to consider~~
116 ~~whether it is in the public's best interest to perform the~~
117 ~~project using the local government's own services, employees,~~
118 ~~and equipment. Upon publication of the public notice and for 21~~
119 ~~days thereafter, the local government shall make available for~~
120 ~~public inspection, during normal business hours and at a~~
121 ~~location specified in the public notice, a detailed itemization~~
122 ~~of each component of the estimated cost of the project and~~
123 ~~documentation explaining the methodology used to arrive at the~~
124 ~~estimated cost. At the public meeting, any qualified contractor~~
125 ~~or vendor who could have been awarded the project had the~~
126 ~~project been competitively bid shall be provided with a~~
127 ~~reasonable opportunity to present evidence to the governing~~
128 ~~board regarding the project and the accuracy of the local~~
129 ~~government's estimated cost of the project. In deciding whether~~
130 ~~it is in the public's best interest for the local government to~~
131 ~~perform a project using its own services, employees, and~~
132 ~~equipment, the governing board must consider the estimated cost~~
133 ~~of the project and the accuracy of the estimated cost in light~~
134 ~~of any other information that may be presented at the public~~
135 ~~meeting and whether the project requires an increase in the~~
136 ~~number of government employees or an increase in capital~~
137 ~~expenditures for public facilities, equipment, or other capital~~
138 ~~assets. The local government may further consider the impact on~~
139 ~~local economic development, the impact on small and minority~~
140 ~~business owners, the impact on state and local tax revenues,~~

HB 687

2013

141 ~~whether the private sector contractors provide health insurance~~
142 ~~and other benefits equivalent to those provided by the local~~
143 ~~government, and any other factor relevant to what is in the~~
144 ~~public's best interest.~~

145 9.10. If the governing board of the local government
146 determines upon consideration of specific substantive criteria
147 that it is in the best interest of the local government to award
148 the project to an appropriately licensed private sector
149 contractor pursuant to administrative procedures established by
150 and expressly set forth in a charter, ordinance, or resolution
151 of the local government adopted before July 1, 1994. The
152 criteria and procedures must be set out in the charter,
153 ordinance, or resolution and must be applied uniformly by the
154 local government to avoid awarding a project in an arbitrary or
155 capricious manner. This exception applies only if all of the
156 following occur:

157 a. The governing board of the local government, after
158 public notice, conducts a public meeting under s. 286.011 and
159 finds by a two-thirds vote of the governing board that it is in
160 the public's best interest to award the project according to the
161 criteria and procedures established by charter, ordinance, or
162 resolution. The public notice must be published at least 14 days
163 before the date of the public meeting at which the governing
164 board takes final action. The notice must identify the project,
165 the estimated cost of the project, and specify that the purpose
166 for the public meeting is to consider whether it is in the
167 public's best interest to award the project using the criteria
168 and procedures permitted by the preexisting charter, ordinance,

HB 687

2013

169 or resolution.

170 b. The project is to be awarded by any method other than a
171 competitive selection process, and the governing board finds
172 evidence that:

173 (I) There is one appropriately licensed contractor who is
174 uniquely qualified to undertake the project because that
175 contractor is currently under contract to perform work that is
176 affiliated with the project; or

177 (II) The time to competitively award the project will
178 jeopardize the funding for the project, materially increase the
179 cost of the project, or create an undue hardship on the public
180 health, safety, or welfare.

181 c. The project is to be awarded by any method other than a
182 competitive selection process, and the published notice clearly
183 specifies the ordinance or resolution by which the private
184 sector contractor will be selected and the criteria to be
185 considered.

186 d. The project is to be awarded by a method other than a
187 competitive selection process, and the architect or engineer of
188 record has provided a written recommendation that the project be
189 awarded to the private sector contractor without competitive
190 selection, and the consideration by, and the justification of,
191 the government body are documented, in writing, in the project
192 file and are presented to the governing board prior to the
193 approval required in this paragraph.

194 ~~10.11.~~ To projects subject to chapter 336.

195 Section 2. This act shall take effect July 1, 2013.
