11 BE IT ENACTED BY THE GENERAL ASSEMBLY OF GEORGIA:

12 style="text-align:center">**SECTION 1.**

13 The General Assembly finds that:

- 14 (1) Since 2010 the State of Georgia has experienced tremendous job growth, adding more
15 than 500,000 new private sector jobs;
- 16 (2) Georgia's economic successes during this period have resulted from a favorable tax
17 structure and regulatory environment and aggressive economic development initiatives;
- 18 (3) Georgia has been declared by several industry publications, including *Site Selection*
19 *Magazine*, to be the best state in the nation for business for the previous four years;
- 20 (4) This economic success has not extended into all of Georgia's rural areas to a desired
21 level;
- 22 (5) As a result, Georgia's rural areas face with challenges distinct from other regions of this
23 state, including loss of population, insufficient health care access, poor infrastructure,
24 diminished opportunity for quality education, scarcity of employment opportunities, and
25 overall lack of economic growth;

- 26 (6) A thorough, intensive, and systematic study of the existing issues in Georgia's rural areas
 27 is necessary and appropriate; and
 28 (7) The objective of such study should be to identify policies and ideas to enhance economic
 29 opportunity across the entire state, particularly in rural areas.
