- (d) "Taxpayer" is defined in section 63-3009, Idaho Code.
- (2) The director shall certify whether a business that has requested to become a qualified business meets the requirements of subsection (1)(c) of this section. The director shall establish the necessary forms and procedures for certifying qualified businesses.
- (3) If a taxpayer makes an investment in a qualified business, the taxpayer is entitled to a credit against state income tax liability as determined pursuant to this chapter. The amount of the credit to which a taxpayer is entitled is thirty percent (30%) of the amount invested by the taxpayer in qualified businesses during the taxable year, subject to the following:
  - (a) The aggregate tax credit per qualified business entity pursuant to this section is not more than five hundred thousand dollars (\$500,000). This subsection may not be interpreted to limit additional investment by a taxpayer for which that taxpayer is not applying for a credit.

- (b) In any taxable year, a taxpayer may claim no more than fifty percent (50%) of the credit pursuant to this section that is attributable to qualified investments in a single taxable year. The amount of the credit allowed pursuant to this section for any taxable year may not exceed fifty percent (50%) of the taxpayer's tax liability as otherwise determined pursuant to this chapter.

- (e) The investment must be at risk in the business. A qualified investment must be in the form of a purchase of ownership interests or the right to receive payment of dividends from the business. A qualified business for which a credit is received pursuant to this section must be held for at least three (3) years.
- (f) The entire amount of an investment for which a credit is claimed pursuant to this section must be expended by the qualified business for plant, equipment, research and development for the qualified business.
- (g) The state tax commission may disallow any credit otherwise allowed pursuant to this section if any representation by a business in the application for certification as a qualified business proves to be false or if the taxpayer or qualified business fails to satisfy any conditions pursuant to this section or any conditions consistent with this section otherwise determined by the state tax commission. The amount of any credit disallowed by the state tax commission that reduced the taxpayer's income tax liability for any or all applicable tax years, plus penalty and interest provided pursuant to this chapter, must be paid by the taxpayer.
