30 In applying these tables to any given separate attendance unit, no
31 school district shall receive less total money than it would receive if it
32 had a lesser average daily attendance in such separate attendance unit. In
33 applying the kindergarten table to a kindergarten program of fewer days
34 than a full school year, the support unit allowance shall be in ratio to the
35 number of days of a full school year. The attendance of students attending
36 an alternative school in a school district reporting fewer than one hundred
37 (100) secondary students in average daily attendance shall not be assigned
38 to the alternative table if the student is from a school district reporting
39 fewer than one hundred (100) secondary students in average daily attendance,
40 but shall instead be assigned to the secondary table of the school district

1 in which they are attending the alternative school, unless the alternative
2 school in question serves students from multiple districts reporting fewer
3 than one hundred (100) secondary students in average daily attendance. The
4 tables for exceptional education and alternative school support units shall
5 be applicable only for programs approved by the state department of educa-
6 tion following rules established by the state board of education. Moneys
7 generated from computation of support units for alternative schools shall be
8 utilized for alternative school programs. School district administrative
9 and facility costs may be included as part of the alternative school expen-
10 ditures.

11 (5) State Distribution Factor per Support Unit. Divide educational
12 support program distribution funds, after subtracting the amounts necessary
13 to pay the obligations specified in subsection (2) of this section, by the
14 total state support units to secure the state distribution factor per sup-
15 port unit.

16 (6) District Support Units. The number of support units for each school
17 district in the state shall be determined as follows:

18 (a) (i) Divide the actual average daily attendance, excluding stu-
19 dents approved for inclusion in the exceptional child educational
20 program, for the administrative schools and each of the separate
21 schools and attendance units by the appropriate divisor from the
22 tables of support units in this section, then add the quotients
23 to obtain the district's support units allowance for regular stu-
24 dents, kindergarten through grade 12 including alternative school
25 students. Calculations in application of this subsection shall be
26 carried out to the nearest hundredth.

27 (ii) Divide the combined totals of the average daily attendance
28 of all preschool, kindergarten, elementary, secondary, juvenile
29 detention center students and students with disabilities approved
30 for inclusion in the exceptional child program of the district by
31 the appropriate divisor from the table for computation of excep-
32 tional education support units to obtain the number of support
33 units allowed for the district's approved exceptional child pro-
34 gram. Calculations for this subsection shall be carried out to the
35 nearest hundredth when more than one (1) unit is allowed.

36 (iii) The total number of support units of the district shall be
37 the sum of the total support units for regular students, subpara-
38 graph (i) of this paragraph, and the support units allowance for
39 the approved exceptional child program, subparagraph (ii) of this
40 paragraph.

41 (b) Total District Allowance Educational Program. Multiply the dis-
42 trict's total number of support units, carried out to the nearest hun-
43 dredth, by the state distribution factor per support unit and to this
44 product add the approved amount of programs of the district provided in
45 subsection (2) of this section to secure the district's total allowance
46 for the educational support program.

47 (c) District Share. The district's share of state apportionment is the
48 amount of the total district allowance, paragraph (b) of this subsec-
49 tion.

1 (d) Adjustment of District Share. The contract salary of every noncer-
2 tificated teacher shall be subtracted from the district's share as cal-
3 culated from the provisions of paragraph (c) of this subsection.

4 (7) Property Tax Computation Ratio. In order to receive state funds
5 pursuant to this section, a charter district shall utilize a school mainte-
6 nance and operation property tax computation ratio for the purpose of calcu-
7 lating its maintenance and operation levy that is no greater than that which
8 it utilized in tax year 1994, less four-tenths of one percent (.4%). As used
9 herein, the term "property tax computation ratio" shall mean a ratio deter-
10 mined by dividing the district's certified property tax maintenance and op-
11 eration budget by the actual or adjusted market value for assessment pur-
12 poses as such values existed on December 31, 1993. Such maintenance and op-
13 eration levy shall be based on the property tax computation ratio multiplied
14 by the actual or adjusted market value for assessment purposes as such values
15 existed on December 31 of the prior calendar year.

16 SECTION 4. That Section 33-1004B, Idaho Code, be, and the same is hereby
17 amended to read as follows:

18 33-1004B. CAREER LADDER. (1) Effective July 1, 2015, all existing in-
19 structional staff shall be placed in a cohort on the career ladder starting
20 with the second cell on the residency/professional compensation rung that
21 corresponds with the next higher allocation amount than is currently re-
22 ceived by the district, based on the experience and education index pursuant
23 to section 33-1004A, Idaho Code, as applied in fiscal year 2015. For each
24 year between July 1, 2015, and June 30, 2019, those instructional staff will
25 move one (1) cell on the career ladder for each year they are employed by a
26 district and meet the applicable performance criteria for the compensation
27 rung and implementation year, unless such movement would result in the dis-
28 trict receiving a lesser allocation than the district would have received if
29 the instructional staff would have moved based on the experience and educa-
30 tion index as applied in fiscal year 2015, for such instructional staff the
31 district salary apportionment calculation shall use the amount that would
32 have been applied based on the experience and education index. Applicable
33 performance criteria used for determining movement on the career ladder will
34 be based on the previous year's performance for the applicable number of
35 years.

36 (2) Effective July 1, 2016, all existing pupil service staff shall be
37 placed in a cohort on the career ladder starting with the second cell on
38 the residency/professional compensation rung or the next higher allocation
39 amount than is currently received by the district, or based on the experience
40 and education index pursuant to section 33-1004A, Idaho Code, as applied in
41 fiscal year 2016, whichever is higher. For each year between July 1, 2016,
42 and June 30, 2019, those pupil service staff will move one (1) cell on the
43 career ladder for each year they are employed by a district and meet the ap-
44 plicable performance criteria for the compensation rung and implementation
45 year, unless such movement would result in the district receiving a lesser
46 allocation than the district would have received if the pupil service staff
47 would have moved based on the experience and education index as applied in
48 fiscal year 2016. For such pupil service staff, the district salary appor-
49 tionment calculation shall use the amount that would have been applied based

1 on the experience and education index. Applicable performance criteria used
2 for determining movement on the career ladder will be based on the previous
3 year's performance for the applicable number of years.

4 (3) Instructional staff and pupil service staff who are in their first
5 year of holding a certificate shall be placed in the first cell of the resi-
6 dency compensation rung and shall move one (1) cell on the residency compen-
7 sation rung for each year they hold a certificate thereafter, for up to three
8 (3) years, at which point they will remain in the third cell of the residency
9 rung until they earn a professional endorsement.

10 (4) Instructional staff new to teaching in Idaho and pupil service
11 staff new to working in an Idaho public school district or charter school who
12 hold a certificate from a state other than Idaho and who are approved to teach
13 in Idaho will be placed into the cohort of instructional staff on the career
14 ladder table equivalent to their experience and education pursuant to sec-
15 tion 33-1004A, Idaho Code, as applied in fiscal year 2015 for instructional
16 staff and 2016 for pupil service staff.

17 (5) In addition to the allocation amount specified for the applicable
18 cell on the career ladder, school districts shall receive an additional al-
19 location amount for career technical education instructional staff holding
20 an occupational specialist certificate in the area for which they are teach-
21 ing in the amount of three thousand dollars (\$3,000).

22 (6) In addition to the allocation amount specified for the applicable
23 cell on the career ladder, school districts shall receive an additional
24 allocation amount for instructional staff and pupil service staff holding
25 a professional endorsement who have acquired additional education and meet
26 the professional compensation rung performance criteria. In determining
27 the additional education allocation amount, only credits and degrees earned
28 based upon a transcript on file with the teacher certification office of the
29 state department of education, earned at an institution of higher education
30 accredited by a body recognized by the state board of education or credits
31 earned through an internship or other work experience approved by the state
32 board of education, shall be credited toward the education allocation. All
33 credits and degrees earned must be in a relevant pedagogy or content area
34 as determined by the state department of education. Education allocation
35 amounts are not cumulative. Instructional staff whose initial certificate
36 is an occupational specialist certificate shall be treated as BA degree-pre-
37 pared instructional staff. Credits earned by such occupational specialist
38 instructional staff after initial certification shall be credited toward
39 the education allocation. Additional allocations are:

 3 twenty-four (24) or more credits, one thousand two hundred dollars
 4 (\$1,200) per fiscal year.

5 (ii) For instructional staff and pupil service staff holding a
 6 professional endorsement and a master's degree, two thousand one
 7 hundred dollars (\$2,100) per fiscal year.
