Explanation of State Expenditures:

Explanation of State Revenues:

Explanation of Local Expenditures: Currently, school corporations may offer cursive as an optional subject area, but it is not required. Handwriting and spelling instruction are not currently required in curricula past grades 3 and 4, respectively. Requiring that cursive, print handwriting and spelling be included in school curricula to the degree specified by this bill should not increase school expenditures, but may cause schools to adjust the amount of time spent on other areas of instruction. A short-term workload increase is also likely as schools adjust curricula in order to meet the requirements of this bill. The bill's requirements should be able to be implemented with no additional appropriations.
