

January 25, 2022

The Honorable Kristey Williams, Chairperson
House Committee on K-12 Education Budget
Statehouse, Room 546-S
Topeka, Kansas 66612

Dear Representative Williams:

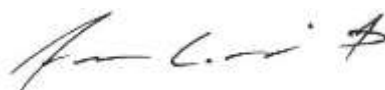

SUBJECT: Fiscal Note for HB 2514 by House Committee on K-12 Education Budget

In accordance with KSA 75-3715a, the following fiscal note concerning HB 2514 is respectfully submitted to your committee.

HB 2514 would require school districts to provide part-time enrollment options for students that would attend a combination of public school and a private, denominational, or parochial school.

According to the Department of Education, the fiscal effect for the enactment of HB 2514 cannot be estimated. The Department notes that those full-time public-school students who would opt to become part-time private school students would result in an eventual lower state aid to school districts, as it would lower the FTE student count in the school finance formula. Conversely, those private school students who would opt to become part-time public-school students would increase the FTE student count in the school finance formula and would increase state aid to school districts. However, the Department cannot estimate the net effect on FTE student count from the enactment of HB 2514. Any fiscal effect associated with HB 2514 is not reflected in *The FY 2023 Governor's Budget Report*.

Sincerely,

Adam Proffitt
Director of the Budget
