➔SECTION 2. A NEW SECTION OF KRS CHAPTER 158 IS CREATED TO READ AS FOLLOWS:

(d) "Parent" means a person who has legal custody or control of the student such as a mother, father, or guardian.

(2) Upon a student's enrollment and at the beginning of each school year, the district shall provide a notification to the student's parents listing each of the health services and mental health services related to human sexuality, contraception, or family planning available at the student's school and of the parents' right to withhold consent or decline any of those specific services. A parent's consent to a health service or mental health service under this subsection shall not waive the parent's right to access the student's

educational or health records held by the district or the notifications required under subsection (3) of this section.

(3) Except as provided in subsection (5) of this section, as part of a school district's effort to provide a safe and supportive learning environment for students, a school shall notify a student's parents if:

(a) The school changes the health services or mental health services related to human sexuality, contraception, or family planning provided to the student, at which point the school shall obtain parental consent prior to treatment; or

(b) School personnel make a referral:

The fact that district personnel withhold information from a parent under this subsection shall not in itself constitute evidence of failure to report dependency, neglect, or abuse to the Cabinet for Health and Family Services under KRS 620.030.

(6) Prior to a well-being questionnaire or assessment, or a health screening form being given to a child for research purposes, a school district shall provide the student's parent with access to review the material and shall obtain parental consent. Parental consent shall not be a general consent to these assessments or forms but shall be required for each assessment or form. A parent's refusal to consent shall not be an indicator of having a belief regarding the topic of the assessment or form.

(7) Nothing in this section shall:

(a) Prohibit a school district or the district's personnel from seeking or providing emergency medical or mental health services for a student as outlined in the district's policies; or
