3 performance deficiencies or enable students to move more quickly through  
4 course requirements and pursue higher level skill development;
- 5 (b) "Constructed-response items" or "performance-based items" means individual  
6 test items that require the student to create an answer rather than select a  
7 response and may include fill-in-the-blank, short-answer, extended-answer,  
8 open-response, and writing-on-demand formats;
- 9 (c) "Criterion-referenced test" means a test that is aligned with defined academic

9 the global economy;
  - 10 2. Result in fewer but more in-depth standards to facilitate mastery  
11 learning;
  - 12 3. Communicate expectations more clearly and concisely to teachers,  
13 parents, students, and citizens;
  - 14 4. Be based on evidence-based research;
  - 15 5. Consider international benchmarks; and

17 of the review process undertaken prior to its consideration.
  - 18 4. Notwithstanding KRS 12.028, the committee shall not be subject to  
19 reorganization by the Governor.
- 20 (g) 1. The review process implemented under this subsection shall be an open,

22 participate. The department shall ensure the public's assistance in  
23 reviewing and suggesting changes to the standards and alignment  
24 adjustments to corresponding state assessments by establishing a Web

23 Committee on Education.
- 24 6. After receiving the commissioner's report, the standards and assessments  
25 process review committee shall either concur that stakeholders have had  
26 adequate opportunity to provide input on standards and the  
27 corresponding alignment of state assessments or find the input process

1           deficient. If the process is found deficient, the recommendations may be  
2           returned to the appropriate standards and assessments review committee  
3           for review as described in subparagraph 3. of this paragraph. If the  
4           process is found sufficient, the recommendations shall be forwarded  
5           without amendment to the Kentucky Board of Education.

11          (i) 1. The Kentucky Board of Education shall consider for approval the  
12             revisions to academic standards for a content area and the alignment of  
13             the corresponding state assessment once recommendations are received  
14             from the standards and assessments process review committee. Existing  
15             state academic standards shall remain in place until the board approves  
16             new standards.

17             2. Any revision to, or replacement of, the academic standards and  
18             assessments as a result of the review process conducted under this  
19             subsection shall be implemented in Kentucky public schools no later  
20             than the second academic year following the review process. Existing  
21             academic standards shall be used until new standards are implemented.

22             3. The Department of Education shall disseminate the academic content  
23             standards to the schools and teacher preparation programs.

24          (j) The Department of Education shall provide or facilitate statewide training  
25             sessions for existing teachers and administrators on how to:

- 9 service education programs and that all teacher interns will have experience
- 10 planning classroom instruction based on the revised standards.
- 11 (l) The Council on Postsecondary Education in cooperation with the Kentucky
- 12 Department of Education and the postsecondary education institutions in the
- 13 state shall coordinate information sessions regarding the academic content
- 14 standards for faculty who teach in the various content areas.
- 15 (3) (a) The Kentucky Board of Education shall be responsible for creating and
- 16 implementing a balanced statewide assessment program that measures the
- 17 students', schools', and districts' achievement of the goals set forth in KRS
- 18 158.645 and 158.6451, to ensure compliance with the federal Every Student
- 19 Succeeds Act of 2015, Pub. L. No. 114-95, or its successor, and to ensure
- 20 school accountability.
- 21 (b) The board shall revise the annual statewide assessment program as needed in
- 22 accordance with revised academic standards and corresponding assessment
- 23 alignment adjustments approved by the board under subsection (2) of this
- 24 section.
- 25 (c) The statewide assessments shall not include any academic standards not
- 26 approved by the board under subsection (2) of this section.
- 27 (d) The board shall seek the advice of the Office of Education Accountability; the

1 School Curriculum, Assessment, and Accountability Council; the Education  
2 Assessment and Accountability Review Subcommittee, and the National

5 shall not include measurement of a student's ability to become a self-sufficient  
6 individual or to become a responsible member of a family, work group, or  
7 community.

8 (4) (a) The academic components of the statewide assessment program shall be  
9 composed of annual student summative tests, which may include a  
10 combination of multiple competency-based assessment and performance  
11 measures approved by the Kentucky Board of Education.

12 (b) The annual student summative tests shall:

16 of skills mastered by individual students;
- 17 3. Provide diagnostic information that identifies strengths and academic  
18 deficiencies of individual students in the content areas;
- 19 4. Provide information to teachers that can enable them to improve  
20 instruction for current and future students;
- 21 5. Provide longitudinal profiles for students; and
- 22 6. Ensure school and district accountability for student achievement of the  
23 goals set forth in KRS 158.645 and 158.6451, except the statewide  
24 assessment program shall not include measurement of a student's ability  
25 to become a self-sufficient individual or to become a responsible  
26 member of a family, work group, or community.

27 (5) The state student assessments shall include the following components:

- 1           (a) Elementary and middle grades requirements are:
- 2           1. A criterion-referenced test each in mathematics and reading in grades
- 3           three (3) through eight (8) that is valid and reliable for an individual
- 4           student and that measures the depth and breadth of Kentucky's academic
- 5           content standards;
- 6           2. A criterion-referenced test each in science and social studies that is valid
- 7           and reliable for an individual student as necessary to measure the depth
- 8           and breadth of Kentucky's academic content standards to be
- 9           administered one (1) time within the elementary and middle grades,
- 10          respectively;
- 11          3. An on-demand assessment of student writing to be administered one (1)
- 12          time within the elementary grades and one (1) time within the middle
- 13          grades; and
- 14          4. An editing and mechanics test relating to writing, using multiple choice
- 15          and constructed response items, to be administered one (1) time within
- 16          the elementary and the middle grades, respectively;
- 17          (b) High school requirements are:
- 18          1. A criterion-referenced test in mathematics, reading, and science that is
- 19          valid and reliable for an individual student and that measures the depth
- 20          and breadth of Kentucky's academic content standards to be
- 21          administered one (1) time within the high school grades;
- 22          2. A criterion-referenced test in social studies that is valid and reliable for
- 23          an individual student as necessary to measure the depth and breadth of
- 24          Kentucky's academic content standards to be administered one (1) time
- 25          within the high school grades;
- 26          3. An on-demand assessment of student writing to be administered one (1)
- 27          time within the high school grades;

- 1           4. An editing and mechanics test relating to writing, using multiple choice  
2           and constructed response items, to be administered one (1) time within  
3           the high school grades; and
- 4           5. A college admissions examination to assess English, reading,  
5           mathematics, and science in the spring of grade ten (10) and the spring  
6           of grade eleven (11);
- 7           (c) The Kentucky Board of Education shall add any other component necessary to  
8           comply with the Every Student Succeeds Act of 2015, Pub. L. No. 114-95, or  
9           its successor, as determined by the United States Department of Education;
- 10          (d) The criterion-referenced components required in this subsection shall be  
11          composed of constructed response items and multiple choice items;
- 12          (e) The Kentucky Board of Education may incorporate end-of-course  
13          examinations into the assessment program to be used in lieu of requirements  
14          for criterion-referenced tests required under paragraph (b) of this subsection;  
15          and
- 16          (f) The results of the assessment program developed under this subsection shall  
17          be used by schools and districts to determine appropriate instructional  
18          modifications for all students in order for students to make continuous  
19          progress, including that needed by advanced learners.
- 20          (6) Each school district shall administer the statewide student assessment during the  
21          last fourteen (14) days of school in the district's instructional calendar. The  
22          Kentucky Board of Education may change the testing window to allow for  
23          innovative assessment systems or other online test administration and shall  
24          promulgate administrative regulations that minimize the number of days of testing  
25          and outline the procedures to be used during the testing process to ensure test  
26          security, including procedures for testing makeup days, and to comply with federal  
27          assessment requirements.

- 1 (7) A student enrolled in a district-operated or district-contracted alternative program  
2 shall participate in the appropriate assessments required by this section.
- 3 (8) A local school district may select and use commercial interim or formative  
4 assessments or develop and use its own formative assessments to provide data on  
5 how well its students are growing toward mastery of Kentucky academic standards,  
6 so long as the district's local school board develops a policy minimizing the  
7 reduction in instructional time related to the administration of the interim  
8 assessments. Nothing in this section precludes teachers from using ongoing teacher-  
9 developed formative processes.
- 10 (9) Each school that enrolls primary students shall use diagnostic assessments and  
11 prompts that measure readiness in reading and mathematics for its primary students  
12 as determined by the school to be developmentally appropriate. The schools may  
13 use commercial products, use products and procedures developed by the district, or  
14 develop their own diagnostic procedures. The results shall be used to inform the  
15 teachers and parents or guardians of each student's skill level.
- 16 (10) The state board shall ensure that a technically sound longitudinal comparison of the  
17 assessment results for the same students shall be made available.
- 18 (11) The following provisions shall apply to the college admissions examinations  
19 described in subsection (5)(b)5. of this section:
- 20 (a) The cost of both college admissions examinations administered to students in  
21 high school shall be paid for by the Kentucky Department of Education. The  
22 costs of additional college admissions examinations shall be the responsibility  
23 of the student;
- 24 (b) If funds are available, the Kentucky Department of Education shall provide a  
25 college admissions examination preparation program to all public high school  
26 juniors. The department may contract for necessary services; and
- 27 (c) Accommodations provided to a student with a disability taking the college

1 admissions assessments under this subsection shall consist of:

- 2 1. Accommodations provided in a manner allowed by the college  
3 admissions assessment provider when results in test scores are  
4 reportable to a postsecondary institution for admissions and placement  
5 purposes, except as provided in subparagraph 2. of this paragraph; or
- 6 2. Accommodations provided in a manner allowed by a student's  
7 individualized education program as defined in KRS 158.281 for a  
8 student whose disability precludes valid assessment of his or her  
9 academic abilities using the accommodations provided under  
10 subparagraph 1. of this paragraph when the student's scores are not  
11 reportable to a postsecondary institution for admissions and placement  
12 purposes.

13 (12) Kentucky teachers shall have a significant role in providing feedback about the  
14 design of the assessments, except for the college admissions exams described in  
15 subsection (5)(b)5. of this section. The assessments shall be designed to:

- 16 (a) Measure grade appropriate core academic content, basic skills, and higher-  
17 order thinking skills and their application;
- 18 (b) Provide valid and reliable scores for schools. If scores are reported for  
19 students individually, they shall be valid and reliable;
- 20 (c) Minimize the time spent by teachers and students on assessment; and
- 21 (d) Assess Kentucky academic standards only.

22 (13) The results from assessment under subsections (3) and (5) of this section shall be  
23 reported to the school districts and schools no later than seventy-five (75) days  
24 following the last day the assessment can be administered. Assessment reports  
25 provided to the school districts and schools shall include an electronic copy of an  
26 operational subset of test items from each assessment administered to their students  
27 and the results for each of those test items by student and by school.

1 (14) The Department of Education shall gather information to establish the validity of  
2 the assessment and accountability program. It shall develop a biennial plan for  
3 validation studies that shall include but not be limited to the consistency of student  
4 results across multiple measures, the congruence of school scores with documented  
5 improvements in instructional practice and the school learning environment, and the  
6 potential for all scores to yield fair, consistent, and accurate student performance  
7 level and school accountability decisions. Validation activities shall take place in a
