

**HOUSE SUMMARY OF SENATE AMENDMENTS**

House Bill No. 272 by Representative Alfred Williams

WEAPONS/FIREARMS: Provides relative to firearms buyback programs for parishes and municipalities

**Synopsis of Senate Amendments**

1. Technical amendments only.

**Digest of Bill as Finally Passed by Senate**

Present law authorizes the city of New Orleans to institute a firearms buyback program, whereby citizens may safely dispose of firearms they no longer desire to own. Present law authorizes the city of New Orleans to acquire funding for the program to buyback firearms from private businesses and to use funds from the city's assets, seizures, and forfeitures fund. Present law authorizes the program to exist for not more than a 30-day period in a calendar year or until the funds acquired or received for the purchase of the firearms are depleted.

Proposed law authorizes all parishes and municipalities to institute a firearms buyback program. Further provides that no public funds other than donations and funds from the city's assets, seizures, and forfeitures fund may be used to implement the program.

Present law requires the city of New Orleans to develop and implement rules of procedure governing the acquisition and disposal of firearms acquired through the program. Provides that all acquired firearms must be either destroyed or delivered to law enforcement agencies for departmental use. Prohibits any acquired firearms from being given to any individual, except a stolen weapon being returned to its rightful owner.

Proposed law retains present law and makes the provisions applicable to all parishes and municipalities that implement a program. Further provides that departmental use of acquired firearms includes the sale of firearms at a public auction. Limits the use of the proceeds of such sales to defraying the cost of the auction, training, and purchase of law enforcement equipment.

(Amends R.S. 33:4879(B) and (C))
