HEALTH CARE/RECORDS EG1 NO IMPACT See Note Page 1 of 1

Requires healthcare providers to document a diagnosis of sickle cell disease on immunization records in certain circumstances

Proposed law provides that the parent or guardian of a student with sickle cell disease may submit to the administration of the student's school a sickle cell disease management and treatment plan developed by the student's parent and treating physician for review and use by school employees with whom the student has regular interaction. The plan shall include the following: 1) The health care accommodations the student may require at school or while participating in a school activity, including but not limited to unrestricted access to the restroom and to adequate hydration and limitations on required physical activity, and 2) signatures from the students parent or guardian and from the treating physician.

EXPENDITURE EXPLANATION

There is no anticipated direct material effect on expenditures within the immunization program in the Office of Public Health as a result of this measure. Proposed legislation authorizes the parent to submit a treatment plan to a student's school that ensures proper hydration, unlimited access to a restroom, and limitations on physical activity for individuals with sickle cell disease.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
