EXPENDITURE EXPLANATION

Proposed law may result in a one-time increase in SGF expenditures to the Department of State to mail out notifications to registered voters about changes to the judicial districts. The LFO estimates the costs of the notification card, printing, and postage to be approximately \$0.85 per notification. There are an estimated 2.9 M voters in the state. The maximum cost exposure would equate to approximately \$2.5 M in FY 25 for notification cards. The table below represents the potential costs based on the number of voters impacted by the redistricting of the supreme court.

Percentage of Voters	Number of Voters	Potential Costs
75%	2,175,000	\$1,848,750
50%	1,450,000	\$1,232,500
25%	725,000	\$615,250
10%	290,000	\$246,500

This fiscal note assumes the Department of State will send out all notifications when the law becomes effective. To the extent the Department of State is able to defer costs over multiple fiscal years the estimated costs will decrease accordingly.

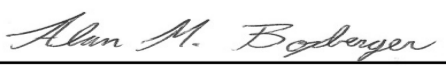

Proposed law may also result in a minimal increase in programing costs for the Department of State to update voting machines to reflect the new judicial districts. This cost can likely be absorbed within the department's existing operating budget.

The Department of State is working to get estimates of any potential costs related to notification of changes to the Supreme Court districts and any additional costs that may be related to updating the judicial districts. Once the LFO receives feedback from the department, the fiscal note will be updated accordingly.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
