EXPENDITURE EXPLANATION

This measure requires a member of Senate, House, and LFO staff with fiscal expertise on the Medicaid program to serve as participants of the Medicaid Estimating Conference. Additionally, this measure further appears to require a healthcare economist from the Legislative Fiscal Office to serve as a participant to the Medicaid Estimating Conference. The individual will specialize in healthcare economics and possess experience forecasting healthcare expenditures. This position will be designated by the legislative fiscal officer. Currently, the LFO does not employ a healthcare economist. Based on salary information provided by LDH, the salary range for a senior economist (economist 6) that currently works in the department is between \$77,916 and \$153,336 (plus related benefits).

The proposed bill will increase SGF expenditures of the legislature as a result of per diem and travel allowances per meeting for attending legislators. The current legislative per diem is \$161, and travel mileage allowance is approximately 57.5 cents per mile. The conference shall meet at least 3 times per fiscal year.

REVENUE EXPLANATION

There is no anticipated direct material effect on governmental revenues as a result of this measure.
