Present constitution provides such exceptions for:

Further provides that no laws requiring increased expenditures within a city, parish, or other local public school system for any purpose shall become effective within such school system only as long as the legislature appropriates funds for the purpose to the affected school system, and then only to the extent funded.

Proposed constitutional amendment provides that no laws requiring increased expenditures within a city, parish or other local public school system for any purpose shall become effective within such school system until, and only as long as, the legislature appropriates funds for the purpose to the affected school system, and then only to the extent funded.

Proposed constitutional amendment further limits the exceptions to the prohibition against unfunded mandates on city, parish or other local public school systems to laws enacted and effective prior to the adoption of the amendment of the present constitution by the electors of the state in 2006.
