24 Y. Purpose. The legislature finds that postsecondary education should
25 remain available to all qualified students, regardless of their financial means, and
26 declares that enhanced access to postsecondary educational opportunities for
27 Louisiana students by providing critically needed assistance to help cover the cost
28 of attending postsecondary education institutions in the state is paramount. The
29 legislature further finds that leveraging access to postsecondary education for

1 students ensures that all qualified students are afforded an opportunity to achieve
2 their full educational potential, increase their overall quality of life, and maximize
3 their contribution to the state's economic development. The legislature also finds that
4 challenging our students by providing rigorous but achievable standards will
5 empower our students to better prepare for their postsecondary educational
6 opportunity and be more successful during and after their academic career. The
7 legislature further finds that any funds that may be realized through savings in the
8 Taylor Opportunity Program for Students should be used to further the purposes of
9 programs established by the state Board of Regents to enhance access to
10 postsecondary educational opportunities for Louisiana students with demonstrated
11 financial need.
