

Regular Session, 2014

HOUSE BILL NO. 2

BY REPRESENTATIVE ROBIDEAUX

CAPITAL OUTLAY: Provides for the comprehensive Capital Outlay budget

1 AN ACT

2 To provide with respect to the capital outlay budget and the capital outlay program for state
3 government, state institutions, and other public entities; to provide for the
4 designation of projects and improvements; to provide for the financing thereof
5 making appropriations from certain sources; and to provide for related matters.

6 Be it enacted by the Legislature of Louisiana:

7 Section 1. The following sums or so much thereof as may be necessary are hereby
8 appropriated out of any monies in the state treasury from the sources specified, from federal
9 funds and self-generated revenues belonging to the state of Louisiana and/or collected by
10 boards, commissions, departments, and agencies thereof, all for making capital outlay and
11 for the purposes and in the amounts specified herein for the Fiscal Year commencing July
12 1, 2014, and ending June 30, 2015, subject to the conditions thereafter provided:

13 A project with funding payable from General Obligation Bonds Priority 1 indicates
14 that the funding for the project includes the reauthorization of funding which was previously
15 on a line of credit granted by the State Bond Commission in Fiscal Year 2013-2014. As
16 used in this Section, the term "general obligation bonds" means state general obligation
17 bonds or other evidences of indebtedness payable from the Bond Security and Redemption
18 Fund. The amount set forth in this Section opposite each project, or so much thereof as may
19 be necessary, is hereby appropriated and payable from the proceeds available from the sale
20 of general obligation bonds, unless a different source of funding is indicated. Where such
21 a different source of funding is indicated, the corresponding amount set forth, or so much

1 thereof as may be necessary, is hereby appropriated and payable from the source of funding
2 indicated; provided, however, amounts appropriated and payable from federal funds may be
3 encumbered or expended only to the extent such amounts shall have been committed or
4 received. Pursuant to the provisions of R.S. 39:82, funds for planning, acquisition,
5 construction, and major repair projects appropriated by this act may be retained until
6 completion of the project, even if no bona fide liability exists on the last day of the fiscal
7 year.

8 This Act shall constitute the comprehensive state capital outlay budget for the 2014-
9 2015 Fiscal Year. Projects set forth which are payable from the proceeds available from the
10 sale of general obligation bonds shall have the priorities as indicated. The Request for Line
11 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana
12 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed
13 with the Commissioner of Administration, State Bond Commission, and State Attorney
14 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund
15 any lower priority project prior to the sale of general obligation bonds or the granting of cash
16 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter
17 provided. This prohibition against funding a lower priority project shall not apply upon a
18 showing of an impossibility or impracticality either to proceed with all unfunded higher
19 priority projects or to proceed with the funding of such projects or any part thereof through
20 the issuance of general obligation bonds for any reason. Such showing shall be stated in
21 reasonable detail in a certificate or certificates signed by the state agency responsible for
22 administering the funding, and filed with the Commissioner of Administration and the State
23 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by
24 the Commission that proceeding with such a project or the funding thereof through the
25 issuance of general obligation bonds is impractical or impossible, the Commission may then
26 proceed with the sale of general obligation bonds or the granting of cash lines of credit
27 without regard to the priority of the unfunded projects determined to be impossible or
28 impractical.

29 Upon recommendation by the state agency responsible for administering the funding,
30 if it is determined at any time that proceeding with the project or with the funding thereof

1 is no longer impossible or impractical, the State Bond Commission may rescind the
2 certificate of impossibility or impracticality and may proceed with the project or with the
3 issuance of general obligation bonds or the granting of cash lines of credit to fund the
4 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),
5 upon reviewing certificates as described above and determining that proceeding with such
6 project or the funding thereof through the issuance of general obligation bonds is impossible
7 or impractical, may designate a lower priority for such project. The Board's determination
8 and lower priority designation shall be submitted to the members of the Legislature for their
9 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the
10 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of
11 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written
12 request of the appropriate legislators and agency, the Board determines that an adjustment
13 to a project description originally set forth in such capital budget adopted by the Legislature
14 for a current fiscal year is necessary to correct a mistake in a project description, clarify a
15 description, change the scope of a description, or make any other adjustment the Board
16 deems necessary to implement the purpose of the project, such adjustment shall become
17 effective only upon the approval by majority vote of the elected members of each house of
18 the Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the
19 Louisiana Revised Statutes of 1950.

20 If such approval is granted, notification by the chair or secretary of the Board of the
21 results of the balloting shall be transmitted to the State Bond Commission, which may then
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit for
23 each change approved upon request of the Commissioner of Administration in accordance
24 with the general rule.

25 With respect to Priorities 1 through 5, a lower priority project may be moved to a
26 higher priority only upon a showing of an emergency or other cause not reasonably
27 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate
28 signed by the head of the appropriate department, political subdivision, or agency and filed
29 with the Commissioner of Administration and the Board. Upon a determination by the
30 Board that such project should be moved to a higher priority because of an emergency or

1 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher
2 priority to the project. The matter then shall be submitted to and be subject to the same
3 approval by the members of the Legislature in the manner previously indicated in this
4 Section. If such approval is granted, notification by the chair or secretary of the board of the
5 change of priority shall be transmitted to the State Bond Commission, which then upon
6 request of the Commissioner of Administration, may proceed with the sale of general
7 obligation bonds or the granting of cash lines of credit in accordance with the general rule.
8 As to projects within a priority, the State Bond Commission acting on requests submitted by
9 the Commissioner of Administration shall determine when such project, or phases thereof,
10 shall be funded. In making such determination, the State Bond Commission shall consider
11 the amount of proceeds of general obligation bonds to be made available in light of money
12 and capital market conditions; the expenditure requirements of the project; the time required
13 for architectural plans and drawings, public bidding, and site acquisition and preparation;
14 availability of receipt of federal monies; litigation affecting the undertaking or completion
15 of a project; federal tax laws and regulations regarding the sale of municipal bonds; and
16 other items of a similar nature bearing upon the possibility or the necessity to commence a
17 project or any particular phase thereof.

18 Any other provision of this Act to the contrary notwithstanding, projects described
19 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the
20 following conditions: (1) Funding is necessary to complete or additionally fund a project
21 located elsewhere in the capital outlay act. Determination of such condition shall be made
22 by the head of the appropriate department or agency by means of a certificate to that effect
23 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such
24 change and if approved by a majority of each house of the Legislature it shall be funded, or
25 (2) unless required by an emergency or other cause not reasonably anticipated by the
26 Legislature, to be in accordance with procedures set forth in this Section. However, the State
27 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which
28 represents that portion of construction contracts which were let during a previous fiscal year,
29 or construction contracts which will be let during the current fiscal year, but which will not
30 require cash expenditures during the year. Such non-cash lines of credit, when combined

1 with previously sold bonds or with higher priority bonds or lines of credit, or with funds
2 appropriated from other sources, will provide sufficient appropriated funds to award
3 equipment or construction contracts. Contracts shall not be awarded without approval of the
4 Division of Administration.

5 Upon approval by the State Bond Commission, and subject to compliance with its
6 policies and procedures and the procedures set forth herein, a line of credit providing for the
7 use of funds in anticipation of the sale of general obligation bonds may be granted to the
8 appropriate administering agency or department from the Comprehensive Capital Outlay
9 Escrow Account, or if there is not a sufficient amount available in such account, from other
10 available state cash in the state treasury, for capital improvement projects for which bond
11 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds
12 for such projects, unless the attorney general advises that an impediment exists to the valid
13 issuance of the bonds on the date such line of credit is granted.

14 All bonds that are to be repaid, in whole or in part, by revenues generated by the
15 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall
16 enter into such agreements as are necessary to provide that the agency or subdivision, whose
17 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption
18 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as
19 determined by the State Bond Commission.

20 Priority 1 general obligation bond funding shall be limited to:

21 (1) Projects and amounts which were previously authorized by Act 24 of the 2013
22 Regular Session of the Legislature; and which were granted cash lines of credit by the State
23 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2013-
24 2014.

25 (2) The reauthorization of the portion of the outstanding Fiscal Year 2013-2014
26 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in
27 Fiscal Year 2014-2015 and therefore must be converted to Cash Lines of Credit in Fiscal
28 Year 2014-2015.

29 (3) Commitments made in the Higher Education Desegregation Settlement
30 Agreement.

1 Priority 2 general obligation bond projects are for the completion of plans and
2 specifications, land acquisition, site preparation, or for construction which will begin during
3 the fiscal year. It is presently anticipated that the listed projects will require the sale of
4 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

5 Priority 3 general obligation bond projects are for the preparation of plans and
6 specifications, land acquisition, site preparation, or for construction and shall be limited to
7 funding for the portion of construction contracts which will not require cash expenditures
8 during the fiscal year. The projects in this category shall be considered future year projects
9 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
10 will not require the sale of bonds or extension of lines of credit during the fiscal year.

11 Priority 4 general obligation bond projects are for the preparation of plans and
12 specifications, land acquisition, site preparation, or for construction and shall be limited to
13 funding for the portion of construction contracts which will not require cash expenditures
14 during the fiscal year. The projects in this category shall be considered future year projects
15 in the State's five year capital outlay plan. It is presently anticipated that the listed projects
16 will not require the sale of bonds or extension of lines of credit during the fiscal year.

17 Priority 5 general obligation bond funding shall be limited to funding for the portion
18 of construction contracts which will not require cash expenditures during the fiscal year.
19 These funds, when combined with previously sold bonds or with higher priority bonds on
20 lines of credit, or with funds appropriated from other sources, will provide sufficient
21 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the
22 award of these contracts.

23 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)
24 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of
25 Transportation and Development is authorized to enter into contracts or agreements for
26 projects approved pursuant to the Highway Priority Program, Airport Construction and
27 Development Priority Program, Port Construction and Development Priority Program, and
28 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced
29 during the fiscal year which do not require cash expenditures for the full contract or
30 agreement amount.
