

1 construction, and major repair projects appropriated by this act may be retained until  
2 completion of the project, even if no bona fide liability exists on the last day of the fiscal  
3 year.

4 This Act shall constitute the comprehensive state capital outlay budget for the 2010-  
5 2011 Fiscal Year. Projects set forth which are payable from the proceeds available from the  
6 sale of general obligation bonds shall have the priorities as indicated. The Request for Line  
7 of Credit form used by the Attorney General and Bond Counsel in evaluating Louisiana  
8 Constitutional, Internal Revenue Code, and applicable income tax regulations shall be filed  
9 with the Commissioner of Administration, State Bond Commission, and State Attorney  
10 General. No general obligation bonds shall be sold, nor cash lines of credit granted to fund  
11 any lower priority project prior to the sale of general obligation bonds or the granting of cash  
12 lines of credit to fund all higher priority projects (the "general rule"), except as hereinafter  
13 provided. This prohibition against funding a lower priority project shall not apply upon a  
14 showing of an impossibility or impracticality either to proceed with all unfunded higher  
15 priority projects or to proceed with the funding of such projects or any part thereof through  
16 the issuance of general obligation bonds for any reason. Such showing shall be stated in  
17 reasonable detail in a certificate or certificates signed by the state agency responsible for  
18 administering the funding, and filed with the Commissioner of Administration and the State  
19 Bond Commission (hereinafter referred to as "the Commission"). Upon a determination by  
20 the Commission that proceeding with such a project or the funding thereof through the  
21 issuance of general obligation bonds is impractical or impossible, the Commission may then  
22 proceed with the sale of general obligation bonds or the granting of cash lines of credit  
23 without regard to the priority of the unfunded projects determined to be impossible or  
24 impractical.

25 Upon recommendation by the state agency responsible for administering the funding,  
26 if it is determined at any time that proceeding with the project or with the funding thereof  
27 is no longer impossible or impractical, the State Bond Commission may rescind the  
28 certificate of impossibility or impracticality and may proceed with the project or with the  
29 issuance of general obligation bonds or the granting of cash lines of credit to fund the  
30 project. Alternatively, the Interim Emergency Board (hereinafter referred to as "the Board"),  
31 upon reviewing certificates as described above and determining that proceeding with such

1 project or the funding thereof through the issuance of general obligation bonds is impossible  
2 or impractical, may designate a lower priority for such project. The Board's determination  
3 and lower priority designation shall be submitted to the members of the Legislature for their  
4 approval in accordance with the provisions of Chapter 3-B of Subtitle I of Title 39 of the  
5 Louisiana Revised Statutes of 1950. In accordance with the provisions of Chapter 3-B of  
6 Subtitle I of Title 39 of the Louisiana Revised Statutes of 1950, whenever at the written  
7 request of the appropriate legislators and agency, the Board determines that an adjustment  
8 to a project description originally set forth in such capital budget adopted by the Legislature  
9 for a current fiscal year is necessary to correct a mistake in a project description, clarify a  
10 description, change the scope of a description, or make any other adjustment the Board  
11 deems necessary to implement the purpose of the project, such adjustment shall only become  
12 effective upon the approval by majority vote of the elected members of each house of the  
13 Legislature in the manner provided for in Chapter 3-B of Subtitle I of Title 39 of the  
14 Louisiana Revised Statutes of 1950.

15 If such approval is granted, notification by the chair or secretary of the Board of the  
16 results of the balloting shall be transmitted to the State Bond Commission, which may then  
17 proceed with the sale of general obligation bonds or the granting of cash lines of credit for  
18 each change approved upon request of the Commissioner of Administration in accordance  
19 with the general rule.

20 With respect to Priorities 1 through 5, a lower priority project may be moved to a  
21 higher priority only upon a showing of an emergency or other cause not reasonably  
22 anticipated by the Legislature, which shall be stated in reasonable detail in a certificate  
23 signed by the head of the appropriate department, political subdivision, or agency and filed  
24 with the Commissioner of Administration and the Board. Upon a determination by the  
25 Board that such project should be moved to a higher priority because of an emergency or  
26 other cause not reasonably anticipated by the Legislature, the Board shall designate a higher  
27 priority to the project. The matter then shall be submitted to and be subject to the same  
28 approval by the members of the Legislature in the manner previously indicated in this  
29 Section. If such approval is granted, notification by the chair or secretary of the board of the  
30 change of priority shall be transmitted to the State Bond Commission, which then upon  
31 request of the Commissioner of Administration, may proceed with the sale of general

1 obligation bonds or the granting of cash lines of credit in accordance with the general rule.  
2 As to projects within a priority, the State Bond Commission acting on requests submitted by  
3 the Commissioner of Administration shall determine when such project, or phases thereof,  
4 shall be funded. In making such determination, the State Bond Commission shall consider  
5 the amount of proceeds of general obligation bonds to be made available in light of money  
6 and capital market conditions; the expenditure requirements of the project; the time required  
7 for architectural plans and drawings, public bidding, and site acquisition and preparation;  
8 availability of receipt of federal monies; litigation affecting the undertaking or completion  
9 of a project, federal tax laws and regulations regarding the sale of municipal bonds; and  
10 other items of a similar nature bearing upon the possibility or the necessity to commence a  
11 project or any particular phase thereof.

12 Any other provision of this Act to the contrary notwithstanding, projects described  
13 in Priority 5 of this Act shall not be moved to a higher priority except upon one of the  
14 following conditions: (1) Funding is necessary to complete or additionally fund a project  
15 located elsewhere in the capital outlay act. Determination of such condition shall be made  
16 by the head of the appropriate department or agency by means of a certificate to that effect  
17 filed with the Interim Emergency Board, who shall, by mail ballot, request approval of such  
18 change and if approved by a majority of each house of the Legislature it shall be funded, or  
19 (2) unless required by an emergency or other cause not reasonably anticipated by the  
20 Legislature, to be in accordance with procedures set forth in this Section. However, the State  
21 Bond Commission may authorize a non-cash line of credit for any project in Priority 5 which  
22 represents that portion of construction contracts which were let during a previous fiscal year,  
23 or construction contracts which will be let during the current fiscal year, but which will not  
24 require cash expenditures during the year. Such non-cash lines of credit, when combined  
25 with previously sold bonds or with higher priority bonds or lines of credit, or with funds  
26 appropriated from other sources, will provide sufficient appropriated funds to award  
27 equipment or construction contracts. Contracts shall not be awarded without approval of the  
28 Division of Administration. The dollar amount of the portion of the projects described as  
29 Department of Economic Development, Mega-Project Site Preparation, Planning and  
30 Construction (Statewide) and LSU Health Sciences Center Health Care Services Division,  
31 University Medical Center in New Orleans (Orleans) moved from Priority 5 to a higher

1 priority shall be deducted from the state portion of the cash line of credit capacity for  
 2 projects in any fiscal year.

3           Upon approval by the State Bond Commission, and subject to compliance with its  
 4 policies and procedures and the procedures set forth herein, a line of credit providing for the  
 5 use of funds in anticipation of the sale of general obligation bonds may be granted to the  
 6 appropriate administering agency or department from the Comprehensive Capital Outlay  
 7 Escrow Account, or if there is not a sufficient amount available in such account, from other  
 8 available state cash in the state treasury, for capital improvement projects for which bond  
 9 proceeds are appropriated by a current capital budget, prior to the actual issuance of bonds  
 10 for such projects, unless the attorney general advises that an impediment exists to the valid  
 11 issuance of the bonds on the date such line of credit is granted.

12           All bonds that are to be repaid, in whole or in part, by revenues generated by the  
 13 project shall be designated as "Reimbursement Bonds". The State Bond Commission shall  
 14 enter into such agreements as are necessary to provide that the agency or subdivision, whose  
 15 project is reimbursable, shall pay the bond debt costs into the Bond Security and Redemption  
 16 Fund. Such costs may be paid annually or at the end of the term of the bonds issued as  
 17 determined by the State Bond Commission.

18           Priority 1 general obligation bond funding shall be limited to:

19           (1) Projects and amounts which were previously authorized by Act 20 of the 2009  
 20 Regular Session of the Legislature; and which were granted cash lines of credit by the State  
 21 Bond Commission. The bonds to fund these projects were not sold in Fiscal Year 2009-  
 22 2010.

23           (2) The reauthorization of the portion of the outstanding Fiscal Year 2009-2010  
 24 Priority 5 Non-Cash Lines of Credit for projects which will require cash expenditures in  
 25 Fiscal Year 2010-2011 and therefore must be converted to Cash Lines of Credit in Fiscal  
 26 Year 2010-2011.

27           (3) Commitments made in the Higher Education Desegregation Settlement  
 28 Agreement.

29           Priority 2 general obligation bond projects are for the completion of plans and  
 30 specifications, land acquisition, site preparation, or for construction which will begin during

1 the fiscal year. It is presently anticipated that the listed projects will require the sale of  
2 bonds or extension of lines of credit during the fiscal year after adoption of this Act.

3 Priority 3 general obligation bond projects are for the preparation of plans and  
4 specifications, land acquisition, site preparation, or for construction and shall be limited to  
5 funding for the portion of construction contracts which will not require cash expenditures  
6 during the fiscal year. The projects in this category shall be considered future year projects  
7 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
8 will not require the sale of bonds or extension of lines of credit during the fiscal year.

9 Priority 4 general obligation bond projects are for the preparation of plans and  
10 specifications, land acquisition, site preparation, or for construction and shall be limited to  
11 funding for the portion of construction contracts which will not require cash expenditures  
12 during the fiscal year. The projects in this category shall be considered future year projects  
13 in the State's five year capital outlay plan. It is presently anticipated that the listed projects  
14 will not require the sale of bonds or extension of lines of credit during the fiscal year.

15 Priority 5 general obligation bond funding shall be limited to funding for the portion  
16 of construction contracts which will not require cash expenditures during the fiscal year.  
17 These funds, when combined with previously sold bonds or with higher priority bonds on  
18 lines of credit, or with funds appropriated from other sources, will provide sufficient  
19 appropriated funds to award contracts. Non-cash lines of credit shall be required prior to the  
20 award of these contracts.

21 In accordance with the cash management plan adopted pursuant to R.S. 48:251(D)  
22 and the provisions of Act 161 of the 1998 First Extraordinary Session, the Department of  
23 Transportation and Development is authorized to enter into contracts or agreements for  
24 projects approved pursuant to the Highway Priority Program, Airport Construction and  
25 Development Priority Program, Port Construction and Development Priority Program, and  
26 Statewide Flood Control Program for projects bid and awarded, authorized, or commenced  
27 during the fiscal year which do not require cash expenditures for the full contract or  
28 agreement amount.

3           statutes relative to public bidding, contractual review, and R.S. 39:101 through 128 and any  
4           other statutes affecting the capital outlay program for state government, state institutions,  
5           and political entities. No contract shall be awarded for any project prior to the granting of  
6           a line of credit or the sale of bonds by the State Bond Commission, determination by the

10           Section 3. Payment for projects specified in this Act must be made by warrant  
11           submitted to the Division of Administration, Department of Transportation and  
12           Development, the State Treasurer or other administering agency as provided in Section 8,  
13           whichever is appropriate, only to the extent of funds required for immediate payment.  
14           Copies of invoices or other supporting documentation shall be submitted with warrants. In  
15           the event that any equipment included in this Act, is procured pursuant to the provisions of  
16           the State Lease Purchase Act, R.S. 39:1761 et seq., the amounts included in this Act for each  
17           such piece of equipment shall not be appropriated. The provisions of R.S. 39:1771 which

21           Act. Projects contained in this Act may, at the direction of the Division of Administration  
22           and with the approval of the State Bond Commission, alternatively be funded through

30           short or appear likely to fall short of the revenue estimates for the fiscal year and that a cash  
31           deficit is likely to be incurred, the Governor shall take such steps as deemed necessary to

1 prevent the occurrence of a cash deficit. In the event that a capital outlay project funded in  
2 this Act falls under an agency which is abolished or for which funds are not appropriated in  
3 the 2010-2011 General Appropriation Act, then the funds appropriated in this Act for such  
4 capital outlay projects shall not be expended unless deemed necessary by the Governor to

2 included, for accounting purposes, in the account of said previously authorized projects. If  
3 it is determined by the Director of the Office of Facility Planning and Control, Division of  
4 Administration, that it is cost effective and practical to combine individual appropriations,  
5 the Commissioner of Administration, subject to the approval of the Joint Legislative  
6 Committee on the Budget, may direct that two or more appropriations or parts thereof may  
7 be combined into a single project for accounting and audit purposes. The Commissioner of

14 rebates not in excess of \$50,000 unless approved by the Joint Legislative Committee on the  
15 Budget, and to add those receipts to the funding for projects in this Act or any previous

22 (1%), of the funding for projects which qualify for the Percent for Art program, may be  
23 transferred from the qualifying project budgets, to the Department of Culture, Recreation and

25 program projects in this or any previous capital outlay, up to ten percent (10%) of the  
26 aforementioned one percent (1%) may be used for the costs of administering the projects.

27 Section 6. Prior to March 1, 2011, the Commissioner shall submit to the Legislature,  
28 a list of projects that are completed and the cash balances remaining in each project.

31 appropriations specified in this or previous capital outlay acts with any federal or other funds

1 which are or may become available and such funds shall be deemed appropriated in specific  
2 amounts necessary for the purposes of this Act. Any funds received by the State Bond  
3 Commission as a result of a prepayment of reimbursement contracts as authorized by law  
4 and the Policy and Procedure for Reimbursement Contracts of the Department of Treasury,  
5 Office of State Bond Commission, shall be deposited as set forth in such Policy and  
6 Procedure and shall be deemed available and appropriated in specific amounts necessary for  
7 the purposes of this Act pursuant to the procedure set forth in this section.
