Bill Header: RETIREMENT/REGISTR VOTER: Authorizes a natural or juridical person to serve as director of the Registrars of Voters Employees’ Retirement System.

Cost Summary:

The estimated actuarial and fiscal impact of HB 20 on the retirement systems and their plan sponsors is summarized below. Actuarial costs pertain to estimated changes in the *actuarial present value of future benefit payments*. Fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by “Increase” or a positive number. Actuarial savings are denoted by “Decrease” or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by “Increase” or a positive number. A decrease in expenditures or revenues is denoted by “Decrease” or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows.

Actuarial Costs Pertaining to:		Actuarial Cost

Bill Information

Current Law

Current law requires that the board of trustees of the Registrars of Voters Employees’ Retirement System (ROVERS) appoint a director by a majority vote of all board members. The director may be a member of the board.

Proposed Law

HB 20 provides that the director may be a natural person or a juridical person.

HB 20 also provides that the director is prohibited from providing actuarial or auditing services to the system while serving as the system’s director.

Implications of the Proposed Changes

HB 20 will allow a juridical person to be appointed as a director instead of a natural person. A juridical person is an entity to which the law attributes personality, such as a corporation or a partnership.

However, neither the actuary nor the auditor of the system can serve as the director, and the director cannot provide actuarial or audit services for the Plan.

**2018 REGULAR SESSION
ACTUARIAL NOTE HB 20**

I. ACTUARIAL ANALYSIS SECTION

**A. Analysis of Actuarial Costs
(Prepared by the LLA)**

This section of the actuarial note pertains to actuarial costs or savings associated with the retirement systems, with OPEB, and with other government entities.

1. Retirement Systems

The actuarial present value cost of HB 20 associated with the retirement systems is estimated to be \$0. Our analysis is summarized below.

HB 20 provides that a juridical person can be appointed as a director and that the director is prohibited from serving as both the system director and the actuary or auditor. HB 20 therefore does not have any effect on the actuarial benefit cost of the retirement system.

2. Other Post-Employment Benefits (OPEB)

The actuarial present value cost of HB 20 associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. Our analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by allowing a juridical person to be appointed as a director or by prohibiting the director from serving as both the system director and the actuary or auditor.

3. Other Government Entities

The actuarial cost of HB 20 associated with government entities other than those identified in HB 20, is estimated to be \$0.

**B. Actuarial Data, Methods and Assumptions
(Prepared by the LLA)**

Unless indicated otherwise, the actuarial note for HB 20 was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by PRSAC. The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees.

**C. Actuarial Caveat
(Prepared by the LLA)**

There is nothing in HB 20 that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

This section of the actuarial note pertains to fiscal costs or savings associated with the retirement systems (Table A), with OPEB (Table B), and with other fiscal costs or savings associated with government entities not associated with either the retirement systems or OPEB (Table C). Fiscal costs or savings in Table A include administrative costs associated with the retirement systems and the sponsoring government entities. The total effect of HB 20 on fiscal costs, fiscal savings, or cash flows is presented in Table D.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by the LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

**C. Estimated Fiscal Impact: Other Government Entities (unrelated to the retirement systems or OPEB)
(Prepared by the LLA)**

1. Narrative

From time to time, legislation is proposed that has an indirect effect on cash flows associated with other government entities, unrelated to the retirement systems or OPEB. Table C shows the estimated fiscal impact of HB 20 on such government entities. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number.
