HB No. 944

Abstract: Requires every cigarette manufacturer whose cigarettes are sold in this state to provide the attorney general with certification of compliance with the "Cigarette Fire Safety and Firefighter Protection Act".

Present law requires each cigarette manufacturer to submit to the state fire marshal a written certification attesting that:

- (1) Each cigarette listed in the certification has been tested in accordance with present law.
- (2) Each cigarette listed in the certification meets the performance standards set forth in present law.

Proposed law extends present law by requiring the certifications to also be sent to the attorney general.

Present law provides that copies of the certifications shall be made available to the attorney general for purposes consistent with present law and the Dept. of Revenue for the purposes of ensuring compliance with present law.

Proposed law removes the requirement that copies of the certifications shall be made available to the attorney general.

(Amends R.S. 40:1629(A)(intro. para.) and (C))
