

Regular Session, 2014

HOUSE CONCURRENT RESOLUTION NO. 129

BY REPRESENTATIVE HUVAL

CIVIL/CLAIMS: Authorizes the Louisiana State Law Institute to study the collateral source rule

1    A CONCURRENT RESOLUTION

2 To authorize and direct the Louisiana State Law Institute to study and make  
3                    recommendations relative to the collateral source rule as it relates to awards for  
4                    damages for medical expenses.

5                WHEREAS, the collateral source rule generally provides that a tortfeasor may not  
6 benefit, and an injured plaintiff's recovery may not be diminished, because of benefits  
7 received by the plaintiff from sources independent of the tortfeasor's contribution; and

8                WHEREAS, medical providers typically reduce their medical charges through  
9 contractual negotiation with healthcare insurers providing coverage to the injured plaintiff;  
10 and

11                WHEREAS, awards for damages for medical expenses to the injured plaintiff  
12 frequently include the unreduced charges of the medical provider, and neither the healthcare  
13 insurer nor the injured plaintiff are obligated to pay the difference between the original,  
14 unreduced charges for services rendered by a medical provider and the contractually reduced  
15 charges actually paid by the healthcare insurer; and

16                WHEREAS, such awards for damages unjustly enrich the injured plaintiff to the  
17 detriment of the liability insurer for the tortfeasor.

18                THEREFORE, BE IT RESOLVED that the Legislature of Louisiana does hereby  
19 authorize and direct the Louisiana State Law Institute to study the collateral source rule and  
20 make recommendations for legislation to prohibit the recovery of medical expense damages  
21 which the injured plaintiff is not obligated to pay.

1           BE IT FURTHER RESOLVED that a suitable copy of this Resolution be transmitted  
2 to the director of the Louisiana State Law Institute.
