

1           WHEREAS, many are concerned that the challenges facing these unique students are  
2 not being adequately addressed at the postsecondary level and feel that these students must  
3 be afforded more assistance so that more of them achieve success in college and career  
4 experiences and enjoy a productive adulthood; and

5           WHEREAS, in order to fulfill the state's constitutional duty of affording every  
6 student an equal opportunity to develop to his full potential, it is imperative that  
7 postsecondary education services for current and former foster youth receive a thorough  
8 examination.

9           THEREFORE, the House of Representatives of the Legislature of Louisiana requests  
10 the House Committee on Education to study issues relative to postsecondary education  
11 services for current and former foster youth and to report its findings to the House of  
12 Representatives prior to the convening of the 2018 Regular Session.

13           THEREFORE, the House of Representatives further requests that the study shall, at  
14 a minimum, identify the following relative to students who are current or former foster  
15 youth:

16           (1) Barriers that impede students' ability to be successful in college, including  
17 challenges relative to academics, housing, financial aid, and transportation, and how they  
18 can be overcome.

19           (2) Opportunities for supporting the implementation of the provisions of R.S.  
20 17:3399.21 through 3399.24 as enacted by Act No. 306 of the 2016 Regular Session of the  
21 Legislature, which require each public postsecondary education institution to provide certain  
22 services for these students.

23           (3) Funding mechanisms for the tuition exemption for certain persons who have  
24 been in foster care as provided in R.S. 17:1687.

25           (4) Methods of ensuring that students take advantage of the federal John H. Chafee  
26 Foster Care Independence Program, which helps current and former foster youth through  
27 educational and training vouchers.

28           (5) Mentorship and internship opportunities through which students can benefit from  
29 meaningful relationships with caring adults and hands-on exposure to career options.

1           (6) Ways in which postsecondary education institutions can better help students  
2 access all educational, financial, housing, transportation, and other resources for which they  
3 are eligible at the local, state, and federal levels.

4           THEREFORE, the House of Representatives further requests that such study shall  
5 include consideration of input from current or former foster youth; members of the  
6 legislative Adoption and Foster Care Caucus; representatives of each public postsecondary  
7 education management board; representatives of the Board of Regents; representatives of  
8 the Louisiana Office of Student Financial Assistance; representatives of the state Department  
9 of Children and Family Services and the state Department of Education; representatives of  
10 organizations that include but are not limited to the Louisiana Institute for Children in  
11 Families, Louisiana Court Appointed Special Advocates for Children, Child Advocacy  
12 Centers of Louisiana, Louisiana Association of Student Assistance Programs, and Louisiana  
13 Progress; and other interested persons as the committee deems appropriate.
