**(40.1) "Nondiscretionary adjusted standstill budget" shall mean and shall contain the following:**

**(a) The budget unit's current-year existing operating budget as of**

1 Senate fiscal staff, House of Representatives fiscal staff, and a representative  
2 from the legislative fiscal office. The annual instructions shall contain the  
3 nondiscretionary functions in the existing operating budget for each budget unit  
4 as of December first of the current fiscal year. The division of administration  
5 shall send the instructions for the nondiscretionary adjusted standstill budget  
6 estimates at the same time as the instructions are sent to the agencies for the  
7 annual budget request submission.

8 (2) Each agency is directed to include in the nondiscretionary adjusted  
9 standstill budget estimate all nondiscretionary requirements.

10 (3) The commissioner of administration shall establish a date for  
11 submission of the nondiscretionary adjusted standstill budget estimates, which  
12 date shall afford the commissioner of administration sufficient time to prepare  
13 the nondiscretionary adjusted standstill budget for inclusion in the continuation  
14 budget document. The nondiscretionary adjusted standstill budget estimates  
15 shall be on the forms and in the manner prescribed in this Section and shall be  
16 accompanied by such other data as may be required, together with such  
17 additional information as the governor may request.

18 (4) Upon receipt of the budget unit's nondiscretionary adjusted standstill  
19 budget estimates, the division of administration shall review the estimates for  
20 reasonableness and shall combine the agency estimates with the mandatory  
21 statewide standard adjustments provided for in the continuation budget, which  
22 shall constitute the nondiscretionary adjusted standstill budget for the ensuing  
23 fiscal year.

24 C. The nondiscretionary adjusted standstill budget shall be derived and  
25 based upon the assumption that the current law and current administrative  
26 procedures will remain in effect for the forecast period.

27 D. The nondiscretionary adjusted standstill budget and the continuation  
28 budget shall be contained in one document and shall be in a format which  
29 compares the budgets by budget unit, on the same page. For purposes of this  
30 Section, there shall be no less than four columns in this document:

1                   (1) The first column shall represent the budget unit's current-year  
2 existing operating budget as of December first.

3                   (2) The second column shall represent the nondiscretionary adjusted  
4 standstill budget which shall be the budget unit's current-year existing  
5 operating budget as of December first, including the cost to provide the  
6 mandatory expenditures in the ensuing fiscal year, and the growth in the  
7 mandatory statewide adjustments.

8                   (3) The third column shall be the continuation budget as provided for in  
9 this Section.

10                   (4) The fourth column shall represent the difference between the  
11 nondiscretionary adjusted standstill budget and the continuation budget. The  
12 nondiscretionary adjusted standstill budget shall be presented at the same  
13 meeting of the Joint Legislative Committee on the Budget as the continuation  
14 budget as provided in Paragraph (A)(2) of this Section.
