Bill Header: STATE POLICE RETIREMENT: Provides for a surviving spouse benefit to resume in certain circumstances. (2/3 - CA10s29(F)) (7/1/2019)

Cost Summary:

The estimated net actuarial and fiscal impact of this proposed legislation on the retirement systems and their plan sponsors is summarized below. Net actuarial costs pertain to estimated changes in the *net actuarial present value of future benefit payments and administrative expenses incurred by the retirement system*. Net fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by “Increase” or a positive number. Actuarial savings are denoted by “Decrease” or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by “Increase” or a positive number. A decrease in expenditures or revenues is denoted by “Decrease” or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *net actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows (i.e., contributions, benefit payments, and administrative expenses).

Net Actuarial Costs (Liabilities) Pertaining to:		<u>Net Actuarial Cost</u>

This bill complies with the Louisiana Constitution which requires unfunded liabilities created by an improvement in retirement benefits to be amortized over a period not to exceed ten years.

Bill Information

Current Law

For members of the Louisiana State Police Retirement System (LSPRS) hired on or before December 31, 2010, current law generally provides that a surviving spouse's benefit shall be forfeited upon the remarriage of the spouse. However, if the remarriage occurs after the surviving spouse attains age 55, the benefit is not discontinued. In addition, effective June 11, 1999, the forfeiture of benefits upon remarriage does not apply to the spouse of a member who was killed in the line of duty.

For members of LSPRS hired on or after January 1, 2011, current law requires the benefits that ceased upon remarriage to resume upon the death of or divorce from the new spouse.

Proposed Law

SB 13 allows a surviving spouse of a member killed in the line of duty whose benefit was forfeited upon remarriage which occurred prior to June 11, 1999, to resume receiving the survivor benefit upon the dissolution of the marriage by death or divorce from the new spouse. These benefits would be paid prospectively only.

Implications of the Proposed Changes

The surviving spouse of a member killed in the line of duty, who remarried prior to June 11, 1999, and subsequently had her survivor benefit forfeited, would now be allowed to resume the survivor benefits prospectively if the marriage has ended by death or divorce, or upon the future dissolution of the marriage by death or divorce from the new spouse.

**2019 REGULAR SESSION
ACTUARIAL NOTE SB 13**

I. ACTUARIAL ANALYSIS SECTION

**A. Analysis of Net Actuarial Costs
(Prepared by LLA)**

This section of the actuarial note pertains to net actuarial costs or savings associated with the retirement systems and with OPEB.

1. Retirement Systems

The net actuarial cost or savings of the proposed legislation associated with the retirement systems is expected to increase. The actuary's analysis is summarized below.

The present value of future benefit payments may increase slightly because survivor benefits would resume for some surviving spouses upon the dissolution of their marriages by death or divorce from their new spouses. It is expected that very few LSPRS surviving spouses are in this situation and will resume survivor benefits. Therefore, while there will be some amount of increase in future benefits due to this proposed bill, it is estimated to be a small increase.

2. Other Post-employment Benefits (OPEB)

The net actuarial cost or savings of the proposed legislation associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. The actuary's analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by the resumption of survivor benefits.

**B. Actuarial Data, Methods and Assumptions
(Prepared by LLA)**

A detailed review of the actuarial data, methods or assumptions applicable to this retirement system was not made or required for the preparation of this Actuarial Note.

**C. Actuarial Caveat
(Prepared by LLA)**

There is nothing in the proposed legislation that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

This section of the actuarial note pertains to fiscal (annual) costs or savings associated with the retirement systems (Table A), with OPEB (Table B), and with other fiscal costs or savings incurred by other government entities (Table C). Fiscal costs or savings in Table A include benefit-related actuarial costs and administrative costs incurred by the retirement systems. The total effect of SB 13 on fiscal costs, fiscal savings, or cash flows is presented in Table D.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by LLA)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.

The proposed legislation will have the following effects on retirement related fiscal costs and revenues during the five year measurement period.

2. Expenditures:

- a. Expenditures from LSPRS (Agy Self-Generated) are expected to increase since more pension benefits would be paid.
- b. Expenditures from the General Fund would increase to the extent that the LSPRS employer contribution requirement rate increases.

3. Revenues:

LSPRS revenues (Agy Self-Generated) would increase because employer contribution requirements will increase.

**B. Estimated Fiscal Impact – OPEB
(Prepared by LLA)**

1. Narrative

Table B shows the estimated fiscal impact of the proposed legislation on actuarial benefit and administrative costs or savings associated with OPEB and the government entities that sponsor these benefit programs. A fiscal cost is denoted by “Increase” or a positive number. Fiscal savings are denoted by “Decrease” or a negative number. A revenue increase is denoted by “Increase” or a positive number. A revenue decrease is denoted by “Decrease” or a negative number.

Actuarial Disclosure: Risks Associated with Measuring Costs

This Actuarial Note is an actuarial communication, and is required to include certain disclosures in compliance with Actuarial Standards of Practice (ASOP) No. 51. Risk disclosures otherwise required by ASOP No. 51 do not apply to this Actuarial Note because the proposed bill does not significantly change the types or levels of risks of the retirement system.

Information Pertaining to Article (10)(29(F) of the Louisiana Constitution

SB 13 contains a retirement system benefit provision having an actuarial cost.

Some members (surviving spouses) of LSPRS will receive a larger benefit with the enactment of SB 13 than without SB 13.
