Bill Header: RETIREMENT SYSTEMS: Provides for harmonization of federal and state law regarding creditable service for military time at La. retirement systems.

Cost Summary:

The estimated actuarial and fiscal impact of SB 17 on the retirement systems and their plan sponsors is summarized below. Actuarial costs pertain to estimated changes in the *actuarial present value of future benefit payments*. Fiscal costs or savings pertain to changes to all cash flows over the next five year period including retirement system cash flows, OPEB cash flows, or cash flows related to other government entities.

An increase in actuarial costs is denoted throughout the actuarial note by “Increase” or a positive number. Actuarial savings are denoted by “Decrease” or a negative number. An increase in expenditures or revenues (fiscal impact) is denoted by “Increase” or a positive number. A decrease in expenditures or revenues is denoted by “Decrease” or a negative number.

Estimated Actuarial Impact:

The top part of the following chart shows the estimated change in the *actuarial present value of future benefit payments and expenses*, if any, attributable to the proposed legislation. The bottom part shows the effect on cash flows.

Actuarial Costs Pertaining to:		<u>Actuarial Cost</u>

Bill Information

Current Law

Current law provides for creditable service in public retirement systems for members serving in the military, as provided in the Military Service Relief Act.

Proposed Law

SB 17 updates certain provisions related to creditable service to comply with the Uniformed Services Employment and Reemployment Rights Act (USERRA).

Implications of the Proposed Changes

USERRA is federal law applicable to state and local employment, and hence, already in effect. SB 17 updates the provisions of the public retirement systems to comply in form with what is already in force and will create uniformity among the systems. Updating the provisions will also make it easier to administer the systems in compliance with the law.

I. ACTUARIAL ANALYSIS SECTION

**A. Analysis of Actuarial Costs
(Prepared by the LLA)**

This section of the actuarial note pertains to actuarial costs or savings associated with the retirement systems, with OPEB, and with other government entities.

**2018 REGULAR SESSION
ACTUARIAL NOTE SB 17**

1. Retirement Systems

The actuarial present value cost of SB 17 associated with the retirement systems is estimated to be \$0. Our analysis is summarized below.

SB 17 updates system provisions to comply in form with what is already in force and therefore does not have any effect on the actuarial cost for any retirement system.

2. Other Post-Employment Benefits (OPEB)

The actuarial present value cost of SB 17 associated with OPEB, including retiree health insurance premiums, is estimated to be \$0. Our analysis is summarized below.

The liability for post-retirement medical insurance protection provided to retirees is not affected by updating system provisions to comply in form with what is already in force.

3. Other Government Entities

The actuarial cost of SB 17 associated with government entities other than those identified in SB 17, is estimated to be \$0.

**B. Actuarial Data, Methods and Assumptions
(Prepared by the LLA)**

Unless indicated otherwise, the actuarial note for SB 17 was prepared using actuarial data, methods, and assumptions as disclosed in the most recent actuarial valuation report adopted by PRSAC. The data, methods and assumptions are being used to provide consistency with the actuary for the retirement system who may also be providing testimony to the Senate and House retirement committees.

**C. Actuarial Caveat
(Prepared by the LLA)**

There is nothing in SB 17 that will compromise the signing actuary's ability to present an unbiased statement of actuarial opinion.

II. FISCAL ANALYSIS SECTION

Tables A, B, C, and D have been prepared by the LLA. These tables include information developed by the LLA from its own sources as well as information supplied by Tanesha Morgan of the Legislative Fiscal Office (LFO). Table D includes all costs and savings pertaining to Louisiana government.

The LFO has requested that the information supplied by Tanesha Morgan be included in the actuarial note verbatim and without any changes. This information is shown below under Fiscal Costs Developed by the LFO. The reader should note that complete fiscal cost information is contained within Table D. Fiscal costs developed by the LFO only reflect the portion of Table D that was supplied by the LFO.

Table A pertains to fiscal costs or savings associated with the retirement systems; Table B pertains to OPEB; Table C pertains to fiscal costs associated with government entities other than the retirement systems and sponsors. Table D is the cumulative sum of Tables A, B, and C.

**A. Estimated Fiscal Impact – Retirement Systems
(Prepared by the LLA using information supplied by the LFO)**

1. Narrative

Table A shows the estimated fiscal impact of the proposed legislation on the retirement systems and the government entities that sponsor them. Fiscal costs and savings include both administrative and actuarial costs and savings. A fiscal cost is denoted by "Increase" or a positive number. Fiscal savings are denoted by "Decrease" or a negative number. A revenue increase is denoted by "Increase" or a positive number. A revenue decrease is denoted by "Decrease" or a negative number.
