DIGEST

SB 202 Original

2015 Regular Session

Adley

Present constitution establishes the Budget Stabilization Fund in the state treasury. Proposed constitutional amendment changes name of the fund from the Budget Stabilization Fund to the Budget and Transportation Stabilization Trust (the Trust) in constitution.

Present constitution provides for deposits of mineral revenues in the Budget Stabilization Fund in excess of the base and authorizes the base to be increased every ten years by a law enacted by two-thirds of the elected members of each house of the legislature. Proposed constitutional amendment retains present constitution except changes the time period for the base to be increased from ten years to five years.

Proposed constitutional amendment creates the Budget Stabilization Subfund and the Transportation Stabilization Subfund in the Budget and Transportation Stabilization Trust and provides that at the beginning of each fiscal year, mineral revenues shall be allocated and deposited into the subfunds as follows:

- (1) Beginning in Fiscal Year 2015-2016, mineral revenues in excess of the base shall be deposited in the Budget Stabilization Subfund until the balance in the fund equals \$500 million.
- (2) Once the balance in the Budget Stabilization Subfund equals \$500 million, mineral revenues shall be deposited into the Transportation Stabilization Subfund at the beginning of the next fiscal year until the balance in the Transportation Stabilization Subfund equals \$500 million. Thereafter, any excess mineral revenues shall be deposited into the state general fund. The legislature may appropriate additional monies into either the Budget Stabilization Subfund or the Transportation Stabilization Subfund.

Proposed constitutional amendment provides that monies in the Transportation Stabilization Subfund shall be appropriated by the legislature and used solely and exclusively for planning, design, construction, and maintenance connected with the state highway program. In the event that a state infrastructure bank is established by law in the Transportation Trust Subfund, an amount not to exceed \$50 million may be transferred to the Transportation Trust Subfund to be used for the capitalization of the state infrastructure bank.

- (3) No deposit of mineral revenues shall be made in any fiscal year in which money in the fund is appropriated for use or incorporated into the official forecast or in the ensuing fiscal year, except by specific appropriation by the legislature.

Present constitution establishes the Transportation Trust Fund and provides that the monies in the trust fund shall be appropriated or dedicated solely and exclusively for the costs for

and associated with construction and maintenance of the roads and bridges of the state and federal highway systems, the Statewide Flood-Control Program, or its successor, ports, airports, transit, state police for traffic control purposes, and the Parish Transportation Fund, or its successor, and the payment of bonds secured by the trust fund.

Proposed constitutional amendment retains present constitution except it provides that if monies are transferred to the Transportation Trust Fund from the Transportation Stabilization Subfund in the Budget and Transportation Stabilization Trust, such monies shall be expended and used solely for the capitalization of the state infrastructure bank, and shall not be used for any other purpose including state police for traffic control purposes.

Specifies submission of the amendment to the electors of the state of Louisiana at the statewide election to be held on October 24, 2015.
