10 §3992. Charter revision and renewal

11 A.(1) Unless revoked as provided for in Subsection C of this Section, an
 12 approved school charter shall be valid for an initial period of five years, contingent
 13 upon the results of the reporting requirements at the end of the third year as provided
 14 in R.S. 17:3998(A)(2), and may be renewed for additional periods of not less than
 15 three nor more than ten years after thorough review by the approving chartering
 16 authority of the charter school's operations and compliance with charter
 17 requirements. The process for renewing a school charter shall be the same as for

2. Forms required for submission of a charter proposal.
3. The timelines established for accepting and reviewing charter proposals
4. The process that will be used to review charter proposals.
5. The name and contact information for the primary point of contact for charter proposals.

Proposed law deletes the 30 day time frame provided for response to a submitted charter proposal provided in present law and instead provides that if no final decision is received within 90 days after submission of a proposal, the chartering group may submit its proposal to BESE for review.

Present law requires that local school boards make vacant school facilities of any facility slated to be vacant available to chartering groups for lease or purchase at fair market value.

Proposed law deletes the requirement that local school board make facilities available to chartering groups "at fair market value" and instead provides that such facilities be made available "up to" fair market value.

Present law requires the chartering group, in return for use of such facilities, to pay a share of the local board's bonded indebtedness associated with such facilities, to be calculated in accordance with applicable law.

Proposed law specifies that the chartering group shall pay a proportionate share of the local school board's bonded indebtedness related to such facilities.

Present law provides that for a Type 2 charter created as the result of a conversion, the facility and all property within the existing school shall also be made available to the chartering group under similar terms.

Proposed law deletes the requirement that facilities be provided to these Type 2 charters "under similar terms."

Present law provides that an approved charter shall be valid for an initial period of 5 years and may be renewed for additional periods of not less than 3 nor more than 10 years. Provides that the process for renewing a school charter shall be the same as for initial charter approval.

Proposed law retains these provisions and additionally provides that the chartering authority shall notify a chartering group in writing of any decisions made relative to the renewal or non-renewal of a school's charter not later than January 31st of the year in which the charter would expire. Further provides that notifications of charter proposals denied shall include a written explanation of the reasons for such denial.

Present law provides that no charter shall be renewed unless the charter renewal applicant can demonstrate using standardized test scores, improvement in the academic performance of pupils over the term of the charter school's existence.

Proposed law retains these provisions and additionally provides that:

1. Each charter school must be provided by the chartering authority with the criteria and procedures that will be used when considering whether to renew a school's charter.

2. A charter school which has met or exceeded the benchmarks established for it in accordance with the school and district accountability system, has demonstrated growth in student achievement, and has had no significant audit findings shall be deemed a high-performing school and its charter shall be automatically renewed.

Effective August 15, 2010.
