- 39 Section 1: Preamble.

40 The foundation for a productive and healthy Massachusetts is a health care system that
41 provides equal access to quality health care for all its residents. Massachusetts spends more on
42 health care per capita than most any other states or any other country in the world, causing undue
43 hardship for the state, municipalities, businesses, and residents, but without achieving universal
44 access to quality health care. The Health Care Trust Medicare for All will allow us to achieve and
45 sustain the three main pillars of a just, efficient health care system: cost control and affordability,
46 universal access, and high quality medical care.

47 (a) COST CONTROL AND AFFORDABILITY

48 Controlling costs is the most important component of establishing a sustainable health
49 care system for the Commonwealth. The Health Care Trust will control costs by establishing a
50 global budget, by achieving significant savings on administrative overhead through consolidating
51 the financing of our health care system, by bulk purchasing of pharmaceuticals and medical
52 supplies, and by more efficient use of our health care facilities. The present fragmented health
53 care system also leads to a lack of prevention. By integrating services and removing barriers to
54 access, the Health Care Trust will lead to early detection and intervention, often avoiding more
55 serious illnesses and more costly treatment.

56 (b) UNIVERSAL EQUITABLE ACCESS

57 Hundreds of thousands of Massachusetts residents still lack health insurance coverage of
58 any sort. Even more residents are covered by plans requiring high deductibles and co-payments
59 that make medical care unaffordable even for the insured. The Health Care Trust will provide
60 health care access to all residents without regard to financial status, ethnicity, gender, previous
61 health problems, or geographic location. Coverage will be continuous and affordable for
62 individuals and families, since there will be no financial barriers to access such as co-pays or
63 deductibles.

64 (c) QUALITY OF CARE

65 The World Health Organization rates health outcomes in the United States health care
66 system lower than those of almost all other industrialized countries, and a number of developing
67 countries as well. Poor health outcomes result from the lack of universal access, the lack of
68 oversight on quality due to the fragmentation and complexity of our health care system, and the
69 frequent lack of preventive and comprehensive care benefits offered under commercial health
70 plans. The Trust will reduce errors through information technology, improve medical care by
71 eliminating much of the present administrative complexity, and emphasize culturally competent

72 outreach and care. It will provide for input from patients on the functioning of the health delivery
73 system.

500 incorporate retrospective adjustments. Except as provided in section sixteen of this chapter,
501 reimbursement for covered services by the Trust shall constitute full payment for the services
502 rendered.

503 The Trust shall provide for retrospective adjustment of payments to eligible health care
504 facilities and providers to:

505 (a) assure that payments to such providers and facilities reflect the difference
506 between actual and projected utilization and expenditures for covered services; and

507 (b) protect health care providers and facilities who serve a disproportionate share of
508 eligible participants whose expected utilization of covered health care services and expected
509 health care expenditures for such services are greater than the average utilization and expenditure
510 rates for eligible participants statewide.

511 The capital expenditures budget shall be used for funds needed for--

512 (a) the construction or renovation of health facilities; and

513 (b) for major equipment purchases.

514 Payment provided under this section can be used only to pay for the operating costs of
515 eligible health care providers or facilities, including reasonable expenditures, as determined
516 through budget negotiations with the Trust, for the maintenance, replacement and purchase of
517 equipment.

518 The Trust shall provide funding for payment of debt service on outstanding bonds as of
519 the effective date of this Act and shall be the sole source of future funding, whether directly or
520 indirectly, through the payment of debt service, for capital expenditures by health care providers

522 the executive director.

553 (14) durable and non-durable medical equipment, supplies and appliances.

555 respect to covered benefits. Patients shall have free choice of participating physicians and other
556 clinicians, hospitals, inpatient care facilities and other providers and facilities.

557 Section 17. Wraparound Coverage for Federal Health Programs.

558 Prior to obtaining any federal program's waivers to receive federal matching funds
559 financing through the Health Care Trust, the Trust will seek to ensure that participants eligible
560 for federal program coverage receive access to care and coverage equal to that of all other
561 Massachusetts participants. It shall do so by (a) paying for all services enumerated under Section
562 16 not covered by the relevant federal plans; (b) paying for all such services during any federally
563 mandated gaps in participants' coverage; and (c) paying for any deductibles, co-payments, co-
564 insurance, or other cost sharing incurred by such participants.

565 Section 18: Establishment of the Health Care Trust Fund.

566 In order to support the Trust effectively, there is hereby established the health care trust
567 fund, hereinafter the Trust Fund, which shall be administered and expended by the executive
568 director of the Trust subject to the approval of the board. The Fund shall consist of all revenue
569 sources defined in Section 20, and all property and securities acquired by and through the use of
570 monies deposited to the Trust Fund and all interest thereon less payments therefrom to meet
571 liabilities incurred by the Trust in the exercise of its powers and the performance of its duties.

572 All claims for health care services rendered shall be made to the Trust Fund and all
573 payments made for health care services shall be disbursed from the Trust Fund.

574 Section 19: Purpose of the Trust Fund.

575 Amounts credited to the Trust Fund shall be used for the following purposes:

576 (1) to pay eligible health care providers and health care facilities for covered services
577 rendered to eligible individuals;

578 (2) to fund capital expenditures for eligible health care providers and health care facilities
579 for approved capital investments in excess of a threshold amount to be determined annually by
580 the executive director;

581 (3) to pay for preventive care, education, outreach, and public health risk reduction
582 initiatives, not to exceed 5% of Trust income in any fiscal year;

583 (4) to supplement other sources of financing for education and training of the health care
584 workforce, not to exceed 2% of Trust income in any fiscal year;

585 (5) to supplement other sources of financing for medical research and innovation, not to
586 exceed 1% of Trust income in any fiscal year;

587 (6) to supplement other sources of financing for training and retraining programs for
588 workers displaced as a result of administrative streamlining gained by moving from a multi-
589 payer to a single payer health care system, not to exceed 2% of Trust income in any fiscal year:
590 provided, however, that eligible workers must have enrolled by June 20 of the third year
591 following full implementation of this chapter;

592 (7) to fund a reserve account to finance anticipated long-term cost increases due to
593 demographic changes, inflation or other foreseeable trends that would increase Trust Fund
594 liabilities, and for budgetary shortfall, epidemics, and other extraordinary events, not to exceed
595 1% of Trust income in any fiscal year: provided, however, that the Trust reserve account shall at
596 no time constitute more than 5% of total Trust assets;

597 (8) to pay the administrative costs of the Trust which, within two years of full
598 implementation of this chapter shall not exceed 5% of Trust income in any fiscal year.

599 Unexpended Trust assets shall not be deemed to be “surplus” funds as defined by chapter
600 twenty-nine of the general laws.

601 Section 20: Funding Sources.

602 20.A: Overview

603 The Trust shall be the repository for all health care funds and related administrative
604 funds. A fairly apportioned, dedicated health care tax on employers, workers, and citizens will
605 replace spending on insurance premiums and out-of-pocket spending for services covered by the
606 Trust. The Trust will enable the state to pass lower health care costs on to residents and
607 businesses through savings from administrative simplification, bulk purchasing discounts on
608 pharmaceuticals and medical supplies, and through early detection and intervention by
609 universally available primary and preventive care. Additionally, collateral sources of revenue –
610 such as from the federal government, non-residents receiving care in the state, or from personal
611 liability – will be recovered by the Trust. Lastly, the Trust shall enact provisions ensuring a
612 smooth transition to a universal health care system for employers and residents.

613 20.B: Health Care Funding

614 The following dedicated health care taxes will replace spending on insurance premiums
615 and out-of-pocket spending for services covered by the Trust. Prior to each state fiscal year of
616 operation, the Trust will prepare for the Legislature a projected budget for the coming fiscal year,
617 with recommendations for rising or declining revenue needs.

618 • An employer payroll tax of 7.5 percent will be assessed, exempting the first
619 \$30,000 of payroll per establishment, replacing previous spending by employers on health
620 premiums. An additional employer payroll tax of 0.44% will be assessed on establishments with
621 100 or more employees;

622 • An employee payroll tax of 2.5 percent will be assessed, replacing previous
623 spending by employees on health premiums and out-of-pocket expenses;

624 • A payroll tax on the self-employed of 10 percent will be assessed, exempting the
625 first \$30,000 of payroll per self-employed resident; and.

626 • A tax on unearned income (dividends, capital gains, rents, and
627 profits) of 102.5 percent will be assessed to fairly distribute the costs of health care across
628 various sources of income.

629 An employer, private or public, may agree to pay all or part of an employee's payroll tax
630 obligation. Such payment shall not be considered income for Massachusetts income tax
631 purposes.

632 Default, underpayment, or late payment of any tax or other obligation imposed by the
633 Trust shall result in the remedies and penalties provided by law, except as provided in this
634 section.

635 Eligibility for benefits shall not be impaired by any default, underpayment, or late
636 payment of any tax or other obligation imposed by the Trust.

637 20.C: Consolidating Public Health Care Spending and Collateral Sources of Revenue

638 It is the intent of this act to establish a single public payer for all health care in the
639 commonwealth. Towards this end, public spending on health insurance will be consolidated into
640 the Trust to the greatest extent possible. Until such time as the role of all other payers for health
641 care has been terminated, health care costs shall be collected from collateral sources whenever
642 medical services provided to an individual are, or may be, covered services under a policy of
643 insurance, health care service plan, or other collateral source available to that individual, or for
644 which the individual has a right of action for compensation to the extent permitted by law.

645 20.C.1: Consolidation of State and Municipal Health Care Spending

646 The Legislature will be empowered to transfer funds from the General Fund sufficient to
647 meet the Trust's projected expenses beyond projected income from dedicated tax revenues. This
648 lump transfer will replace current General Fund spending on health benefits for state employees,
649 services for patients at public in-patient facilities, and all means- or needs-tested health benefit
650 programs. Additionally, the Legislature will reduce local aid to municipalities commensurate
651 with the reduced burden of health insurance premiums for municipal employees and contractors.

652 20.C.2: Federal Sources of Revenue

653 The Trust shall receive all monies paid to the commonwealth by the federal government
654 for health care services covered by the Trust. The Trust shall seek to maximize all sources of
655 federal financial support for health care services in Massachusetts. Accordingly, the executive

656 director shall seek all necessary waivers, exemptions, agreements, or legislation, if needed, so
657 that all current federal payments for health care shall, consistent with the federal law, be paid
658 directly to the Trust Fund. In obtaining the waivers, exemptions, agreements, or legislation, the
659 executive director shall seek from the federal government a contribution for health care services
660 in Massachusetts that shall not decrease in relation to the contribution to other states as a result
661 of the waivers, exemptions, agreements, or legislation.

662 20.C.3: Collection of Collateral Sources of Revenue

663 As used in this section, collateral source includes all of the following:

- 664 • insurance policies written by insurers, including the medical components of
665 automobile, homeowners, workers' compensation, and other forms of insurance;
- 666 • health care service plans and pension plans;
- 667 • employee benefit contracts;
- 668 • government benefit programs;
- 669 • a judgment for damages for personal injury;
- 670 • any third party who is or may be liable to an individual for health care services or
671 costs;

672 As used in this section, collateral sources do not include either of the following:

- 673 • a contract or plan that is subject to federal preemption;
- 674 • any governmental unit, agency, or service, to the extent that subrogation is
675 prohibited by law.

676 An entity described as a collateral source is not excluded from the obligations imposed by
677 this section by virtue of a contract or relationship with a governmental unit, agency, or service.

678 Whenever an individual receives health care services under the system Trust and s/he is
679 entitled to coverage, reimbursement, indemnity, or other compensation from a collateral source,
680 s/he shall notify the health care provider or facility and provide information identifying the
681 collateral source other than federal sources, the nature and extent of coverage or entitlement, and
682 other relevant information. The health care provider or facility shall forward this information to
683 the executive director. The individual entitled to coverage, reimbursement, indemnity, or other
684 compensation from a collateral source shall provide additional information as requested by the
685 executive director.

686 The Trust shall seek reimbursement from the collateral source for services provided to
687 the individual, and may institute appropriate action, including suit, to recover the costs to the

688 Trust. Upon demand, the collateral source shall pay to the Trust Fund the sums it would have
689 paid or expended on behalf of the individuals for the health care services provided by the Trust.

690 If a collateral source is exempt from subrogation or the obligation to reimburse the Trust
691 as provided in this section, the executive director may require that an individual who is entitled
692 to medical services from the collateral source first seek those services from that source before
693 seeking those services from the Trust.

694 To the extent permitted by federal law, contractual retiree health benefits provided by
695 employers shall be subject to the same subrogation as other contracts, allowing the Trust to
696 recover the cost of services provided to individuals covered by the retiree benefits, unless and
697 until arrangements are made to transfer the revenues of the benefits directly to the Trust.

698 20.C.4: Retention of Funds

699 The Trust shall retain:

- 700 • all charitable donations, gifts, grants or bequests made to it from whatever source
701 consistent with state and federal law;
- 702 • payments from third party payers for covered services rendered by eligible
703 providers to non-eligible patients but paid for by the Trust;
- 704 • income from the investment of Trust assets, consistent with state and federal law.

705 20.D: Transitional Provisions

706 Any employer that which has a contract with an insurer, health services corporation or
707 health maintenance organization to provide health care services or benefits for its employees,
708 which is in effect on the effective date of this section, shall be entitled to an income tax credit
709 against premiums otherwise due in an amount equal to the Trust fund premium due pursuant to
710 this section.

711 Any insurer, health services corporation, or health maintenance organization which
712 provides health care services or benefits under a contract with an employer which is in effect on
713 the effective date of this act shall pay to the Trust Fund an amount equal to the Health Trust
714 premium which would have been paid by the employer if the contract with the insurer, health
715 services corporation or health maintenance organizations were not in effect. For purposes of this
716 section, the term “insurer” includes union health and welfare funds and self-insured employers.

717 Six months prior to the establishment of a single payer system, all laws and regulations
718 requiring health insurance carriers to maintain cash reserves for purposes of commercial stability
719 (such as under Chapter 176G, Section 25 of the General Laws) shall be repealed. In their place,
720 the Executive Director of the Trust shall assess an annual health care stabilization fee upon the

721 same carriers, amounting to the same sum previously required to be held in reserves, which shall
722 be credited to the Health Care Trust Fund.

723 Section 21: Insurance Reforms.

724 Insurers regulated by the division of insurance are prohibited from charging premiums to
725 eligible participants for coverage of services already covered by the Trust. The commissioner of
726 insurance shall adopt, amend, alter, repeal and enforce all such reasonable rules and regulations
727 and orders as may be necessary to implement this section.

728 Section 22: Health Trust Regulatory Authority.

729 The Trust shall adopt and promulgate regulations to implement the provisions of this
730 chapter. The initial regulations may be adopted as emergency regulations but those emergency
731 regulations shall be in effect only from the effective date of this chapter until the conclusion of
732 the transition period.

733 Section 23: Implementation of the Health Care Trust.

734 Not later than thirty days after enactment of this legislation, the governor shall make the
735 initial appointments to the board of the Massachusetts Health Care Trust. The first meeting of the
736 trustees shall take place within 60 days of the election of trustees to the board.
