An Act to establish an office of youth development.

Be it enacted by the Senate and House of Representatives in General Court assembled, and by the authority of the same, as follows:

1 SECTION 1. Whereas, analysis of current social and health status indicators indicate

3 system, experiencing high rates of homicide and suicide, engaged in violence and anti-social
4 behaviors, becoming abusers of drugs, alcohol and tobacco, experiencing a high rate of
5 pregnancies and sexual transmitted disease, and leaving school without marketable skills. There
6 is clear and present danger that the current socio-economic status of this generation of urban
7 youth will have a negative impact on the general well-being of the entire society of the

9 stated phenomenon developed, and in spite of the many changes implemented and proposed, do
10 not present the model nor infrastructure needed to provide an appropriate model to ameliorate the
11 situation with urban youth; and Whereas, the current negative social, economic and health status
12 indicators for urban youth may be defined as predictors for negative future social and economic

13 outcomes; and Whereas, violent behaviors, both as victim and perpetrators, substance
14 abuse, teen pregnancy and infant mortality, sexual transmitted disease, delinquent behaviors, and
15 suicide are clearly identified as public health concerns, Therefore, Notwithstanding any act

21 citizenship among youth, between the ages of seven and eighteen. All programs and activities
22 shall be coordinated with the Executive Office of Health and Human Services organizations in
23 each city, so as to optimize the allocation of resources.

24 SECTION 2. Programs and activities shall be provided outside of school hours,
25 year-round, including weekends for individuals who are enrolled in school, with programs and

32 avoiding teen-age pregnancies. With some components modeled after the pre-World War II
33 Work Project Administration (WPA) and Civilian Conservation Corps (CCC) the system shall
34 provide practical skill building beyond the theoretical approach used in public schools.

35 SECTION 4. Programs and activities shall be implemented through contracts with
36 federally qualified, Community Health Centers. Policy-makers and staff of contracting
37 organizations shall reflect the participant population of the program.

38 SECTION 5. The programs and activities shall include but not be limited to the
39 following: (1) a research component to address issues pertaining to replication of successful

47 procedure to develop a common intake and referral system to increase the use of preventive
48 services, share resource information, avoid duplication and to allow participants to engage in,

50 mini-grants to various community agencies; (9) coordinate with already established
51 organizations and agencies; and (10) develop needed services as required for the success of the
