6 or more of the following, for the purpose of retrieving data after an accident:

7 (i) records vehicle speed and direction,

- 8 (ii) records vehicle location data,
- 9 (iii) records vehicle steering performance,
- 10 (iv) records brake performance, including, but not limited to, whether brakes were applied before

- 13 (vi) records whether the air bag deployed,

- 16 (2) "Owner", any of the following:—
- 17 (i) A person having all the incidents of ownership, including the legal title of a vehicle regardless
18 of whether the person lends, rents, or creates a security interest in the vehicle.
- 19 (ii) A person entitled to the possession of a vehicle as the purchaser under a security agreement.
- 20 (iii) The person entitled to possession of the vehicle as lessee under a written lease agreement, if
21 the agreement at inception is for a period of more than 3 months.
- 22 (b) (1) A manufacturer of a new motor vehicle sold or leased in the commonwealth, which is
23 equipped with one or more recording devices commonly referred to as "event data recorders",
24 including "sensing and diagnostic modules," shall disclose the presence, capacity, and
25 capabilities of the recording devices in the owner's manual for the vehicle.

26 (2) A motor vehicle dealer shall include within the purchase contract in a clear and conspicuous
27 manner information on the possibility of the presence of a recording device.

28 (3) Clear and conspicuous information on the possibility of the presence of a recording device
29 shall be affixed by a sticker to a window of each new motor vehicle offered for sale or lease in
30 the commonwealth.

31 (c) (1) (i) If a motor vehicle is equipped with a recording device and is involved in an accident,
32 the owner of the motor vehicle at the time the data is created shall own and retain exclusive
33 ownership rights to the data.

34 (ii) The ownership of the data shall not pass to a lienholder or to an insurer because the
35 lienholder or insurer succeeds in ownership to the vehicle as a result of the accident.

36 (2) The data shall not be used by a lienholder or an insurer for any reason without a written

55 (4) The data is retrieved by a licensed new motor vehicle dealer, or by an automotive technician
56 for the purpose of diagnosing, servicing, or repairing the motor vehicle.

57 (5) The data is retrieved for the purpose of determining the need for or facilitating emergency
58 medical response in the event of a motor vehicle accident.

74 recording device. Subsection (b) shall apply to all motor vehicles containing a recording device
